GUI Declaration letter

Date: 2014-02-07

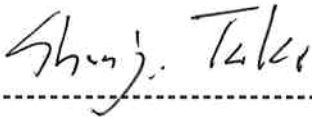

FCC ID: RSL-TQ3600

To Whom It May Concern:

We, Allied Telesis R&D Center K.K., declare that as part of the DFS functionality in the WLAN driver, software is implemented to react to radar detection messages and move to a new channel. The control of this functionality is not accessible to anyone under any conditions. Furthermore, the firmware is only can be modify by using a special tool (console cable) which will not be released and won't supply any console pin with the finish product.

Thank you for your attention.

Sincerely yours,

Name: Shunji Taki

Title: Manager
