Subject: Request for withholding from public disclosure the schematic diagram, block diagram, and operational description pursuant to an application for certification.

Gentleman:

We (Mission Microsystems Inc), would like to request that all schematics, block diagrams, and operational descriptions submitted with our application for certification be withheld from public disclosure per Section 0.459 of the FCC rules.

This request is mad under the provisions of Section 0.457(d) of the Commissions rules, and Section 522 (b)(4) of the Freedom of Information Act. These sections authorize the withholding from public inspection, those materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

If you have any questions or need any additional information, please give me a call at (714)-841-1986.

Sincerely,

A handwritten signature in black ink, appearing to read "William B. McDonough". The signature is fluid and cursive.

William B. McDonough
President
