Sorry Chris,
My mistake.

I accidentally put the wrong declaration in the report.
Attached is the correct declaration for the subject application.

Shaik or David, please respond to the following request as I could not find the information in the application documentation:

1. Does the frequency hopping system comply with the non-coordination requirement of 15.247(h)?
2. Does this transmitter use equally on average each of the transmitter frequencies to comply with the requirement of FCC 15.247(a)(1)?

Best regards,

Chris Harvey
