

User Guide

A Know Your BrainLink Dual

Plug the data port B into data port A, and make sure the clips are locked.

B Connect BrainLink Dual With Your Mobile Device

Long press POWER to switch on BrainLink Dual

Turn on Bluetooth on your mobile device to search BrainLink Dual and pair it.

When paired, on iOS device, you will see CONNECTED in MY DEVICES under Bluetooth page. On Android devices however, there will not be any connection information shown on the bluetooth list. The apps will anyway connect automatically.

C Wear Headband

Put on BrainLink Dual and adjust the headband to your comfortable position.

Please make sure that the core module is on the left side of your head, and all 3 sensors are pressing against your forehead firmly.

D Power off And Charging

Short press POWER to switch off BrainLink Dual

USB Charging cable

When the LED light flashes and beeps continuously, it means the battery of your BrainLink Dual is low.

Charging

You can use the USB charging cable attached in the package to charge your BrainLink Dual to any USB port. The red LED light will be off when the charging process completes.
Note: Please keep the USB charging cable safely. It is a customized cable by MacroTellect and BrainLink Dual is not compatible to any other micro USB or mini USB cable.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1) Reorient or relocate the receiving antenna.

2) Increase the separation between the equipment and receiver.

3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

4) Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
