FCC NOTICE

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES.
OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITION:
(1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND
(2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED,
INCLUDING INTERFERENCE THAT MAY CAUSE UNDERSIRED
OPERATION.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer of an experienced radio/TV technician for help.

NOTE : The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

Preset call

When users use the Preset function, **select the number** and **click the call button**. Then the camera will move to the set point.

Preset clear

When users want to clear the Preset, **select the number** and **click the Clear button**. Then it will be cleared.

Technical Specification

Meye314

Video	Input : NTSC / PAL Resolution : 320 X 240, 640 X 240(Optional) Compression : MPEG4, Compression rate : 200 ~ 400:1 Frame rate : Max. 30 frames/sec, Avg. 20 ~ 25 frames/sec Size per frame : 0.5 KB Number of video input : switching 4 channels Number of MPEG4 encoding : 1 channel
Protocols	TCP/IP, HTTP, SMTP, ARP, DNS, PPPoE, ICMP, FTP
Network interface	Ethernet : 10 BASE-T, RJ-45
Video control	Image quality(MinQ,MaxQ),frame rates, Intra interval, Bandwidth
Digital In/Out	Opto-isolated 4 inputs, relay 1 output
Voice	Phone line quality G.726 ADPCM Bi-directional audio : Mic input / Speaker output
Operation environment	0 ~ 50 °C, 800 mA(in normal 240 mA, Max 800 mA)
Access	Basic 10 Clients Maximum more 100 clients(optional)
Serial	RS-232 1 channel & RS-485 1 channel Mainly used for PTZ control
