Kristi Kurkowski

Intertek Testing Services NA, Inc.
7250 Hudson Boulevard
Suite 100
Oakdale, MN. 55128

Kristi,

This letter regards the technical data that was submitted to the FCC for the Wesroc Tank Transmitter with regard to Part 15 testing. (Currently FCC ID# RWB-MT9100T) It is a formal request to make certain confidential information that was previously submitted to the FCC unavailable to the general public. The following are the files that we would prefer to not be publicly available:

- The Block Diagram
- The Operational Description
- The Schematics

These files require confidentiality because they contain information that reveals methods and materials used by the product that are unique to our product in our intended market and are considered by MetroTel to be trade secrets.

We would prefer the make public only that which is absolutely necessary. If there are any other documents that can be removed, please remove them also.

Thanks for you help.

A handwritten signature in black ink, appearing to read "Doug Ferguson".

7/13/2004

Doug Ferguson
