SETTING UP YOUR RAZER THRESHER 7.1

CONNECTING YOUR USB WIRELESS DONGLE TO YOUR PS4

1. Plug the USB wireless dongle to your PS4*.

2. Plug the optical to mini-optical cable from the USB wireless dongle to your PS4*.

**Not applicable to Playstation Slim models*

3. From the PS4 home Screen, go to **Settings > Sound and Screen > Audio Output Settings**.

4. On the **Primary Output Port**, select **DIGITAL OUT (OPTICAL)**, and then select **Dolby Digital 5.1ch**.

Note: Please make sure that Dolby Digital 5.1ch is the only selected option on the list.

5. On the **Audio Format (Priority)**, select **Linear PCM**.

6. Go to **Settings > Devices > Audio Devices**, and then select your **Razer Thresher 7.1** for the **Input Device** and **Output Device** options.

Note: It is recommended to set Volume Control and Adjust Microphone Level to maximum then use the headset controls to fine-tune the settings.

7. On the **Output to Headphones**, select **Chat Audio**.

CONNECTING YOUR AUDIO DONGLE TO YOUR PC

1. Plug the USB wireless dongle to your PC.

2. Open your Sound settings from **Control Panel > Hardware and Sound > Manage audio devices**. You can also right-click on the sound icon on the system tray, and then select **Playback devices**.

3. In the Playback tab, select Razer Thresher 7.1 from the list, and then click the **Set Default** button.

CONNECTING YOUR AUDIO DONGLE TO YOUR MAC

1. Plug the audio dongle to your Mac.

2. Open your Sound settings from System Preferences > Sound.

3. In the Output tab, select Razer Thresher 7.1 from the list.

Name	Type
Headphones	Built-in Output
Line Out	Built-in Line Output
Razer Thresher 7.1	USB

4. In the Input tab, select Razer Thresher 7.1 from the list.

Name	Type
External Microphone	Microphone port
Line In	Audio line-in port
Razer Thresher 7.1	USB

USING YOUR RAZER THRESHER 7.1

CHARGING YOUR HEADSET

Plug your Razer Thresher 7.1 to a powered USB port using the Micro-USB to USB cable.

For best results, please fully charge the headset before using it for the first time. A depleted unit will fully charge in about **4 hours**.

Understanding The Charging Notifications

The LED indicator on the headset will send out notifications depending on its current charging status, as shown here:

	LED NOTIFICATION	SOUND NOTIFICATION	STATUS
	Static red 	None 	Charging 
	Static blue 	None 	Charged 
	Blinking red 	Warning tone 	Low battery 

POWER ON

Press and hold the headset power button until you hear the ON tone, the LED indicator is lit, or until the Razer logo starts blinking.

Note: Keep the devices within close proximity of each other for a faster and more stable connection.

POWER OFF

Press and hold the headset power button until you hear the OFF tone, the LED indicator is off, or until the Razer logo is turned off.

CONNECTING NOTIFICATIONS

The headset and the audio dongle will display notifications depending on its current status, as shown here:

NOTIFICATION	STATUS
Blinking 	Searching
Static 	Connected

Note: If the headset is not connected, it will automatically power off after a few minutes.

USING THE AUDIO VOLUME CONTROL

Rotate the audio volume control to increase or decrease the volume. You will hear a short beep when you reach the minimum or maximum volume.

Press the audio volume button to mute or unmute the in-game audio.

Press and hold the audio volume button until you hear a tone to enable or disable the virtual surround sound environment.

USING THE RETRACTABLE MICROPHONE

Pull the tip of the microphone until it is fully extended.

Bend the microphone until it is in front of your mouth, then adjust the length as preferred.

USING THE MIC VOLUME CONTROL

Rotate the volume control to increase or decrease the microphone volume. You will hear a short beep when you reach either the minimum or maximum volume.

Press the mic volume control to mute or unmute the microphone. The microphone LED will light up when muted.

Press and hold the mic volume button until you hear a tone to enable or disable mic monitoring.

EXTENDING YOUR HEADSET'S LIFESPAN

We recommend stretching the headset gently apart before placing them over your head to minimize headband stress. However, please avoid overstretching the headset beyond its technical limits.

Please refer to the Online Master Guide at [razersupport.com](https://support.razer.com) for in-depth instructions on how to configure and use your Razer Thresher 7.1.

SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer Thresher 7.1, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to razersupport.com for support. Do not attempt to service or fix the device yourself at any time.

Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

The device isolates external ambient sounds even at low volumes, resulting in lowered awareness of your external surroundings. Please remove the device when engaging in any activities that requires active awareness of your surroundings.

Listening to excessively loud volumes over extended periods of time can damage your hearing. Furthermore, legislation of certain countries permits a maximum sound level of 86db to affect your hearing for 8 hours a day. We therefore recommend that you reduce the volume to a comfortable level when listening for prolonged periods of time. Please, take good care of your hearing.

MAINTENANCE AND USE

The Razer Thresher 7.1 requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the computer and clean it using a soft cloth or cotton swab with a bit of warm water to prevent dirt buildup. Do not use soap or harsh cleaning agents.

LIMITED PRODUCT WARRANTY

For the latest and current terms of the Limited Product Warranty, please visit:
razerzone.com/warranty.

LIMITATION OF LIABILITY

Razer shall in no event be liable for any lost profits, loss of information or data, special, incidental, indirect, punitive or consequential or incidental damages, arising in any way out of distribution of, sale of, resale of, use of, or inability to use the Product. In no event shall Razer's liability exceed the retail purchase price of the Product.

COSTS OF PROCUREMENT

For the avoidance of doubt, in no event will Razer be liable for any costs of procurement unless it has been advised of the possibility of such damages, and in no case shall Razer be liable for any costs of procurement liability exceeding the retail purchase price of the Product.

GENERAL

These terms shall be governed by and construed under the laws of the jurisdiction in which the Product was purchased. If any term herein is held to be invalid or unenforceable, then such term (in so far as it is invalid or unenforceable) shall be given no effect and deemed to be excluded without invalidating any of the remaining terms. Razer reserves the right to amend any term at any time without notice.

_ FCC Statement

_ This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- _ Reorient or relocate the receiving antenna.
- _ Increase the separation between the equipment and receiver.
- _ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- _ Consult the dealer or an experienced radio/TV technician for help.

_ FCC Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada Statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of

the device. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.
