

RAZER GAMING MOUSE

RZ01-0557

IMPORTANT PRODUCT INFORMATION GUIDE

## WHAT'S INSIDE

- Razer RZ01-0557

A. Razer™ Optical Mouse Switches Gen-4

- o Left mouse button
- o Right mouse button

B. Razer™ Optical Scroll Wheel

C. Multifunction button

- o DPI Cycle Up (press)
- o Invoke AI Prompt Master (hold)

D. Mouse button 5

E. Mouse button 4

F. USB Type C port

G. Ultraslick mouse feet

H. Profile indicator

I. Razer™ Focus X 26K Optical Sensor

J. Slider switch

- Bluetooth mode
- Power off mode
- Razer™ HyperSpeed Wireless (2.4 GHz) mode

K. Profile button

L. Wireless USB dongle compartment/cover puck\*\*

M. 3-Zone Chroma underglow lighting

The DPI stages are as follows: 400, 800, 1600 (default), 3200 and 6400. and can be customized using Razer Synapse.

\*\*The cover puck is interchangeable with the Razer Wireless Charging Puck for wireless charging via Razer Mouse Dock Pro (each sold separately).

- Razer™ HyperSpeed Wireless dongle + USB dongle adapter

- USB Type A to USB Type C cable

## USING YOUR RAZER RZ01-0557

### PERSONALIZE YOUR MOUSE

Your Razer RZ01-0557 can store up to 5 profiles from the Razer Synapse app, allowing you to use these profiles even on systems without the app installed. Pressing the profile button will cycle through the different profiles, with the profile indicator's color showing which profile is currently selected.

| Profile        | Designated color |
|----------------|------------------|
| Active Profile | White            |
| Profile 1      | Red              |
| Profile 2      | Green            |
| Profile 3      | Blue             |
| Profile 4      | Cyan             |

- i** *Install Razer Synapse when prompted or download the installer from [razer.com/synapse](https://www.razer.com/synapse). Use the Razer Synapse app to customize your mouse's lighting, configure its multi-function trigger and buttons, and even create various profiles suited for different playstyles.*

## SAFETY AND MAINTENANCE

### SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer RZ01-0557, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to [support.razer.com](https://support.razer.com) for support.

Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

Avoid looking directly at the tracking beam of your mouse or pointing the beam in anyone else's eye. Note that the tracking beam is NOT visible to the naked human eye and is set on an Always-On mode.

### COMFORT

Research has shown that long periods of repetitive motion, improper positioning of your computer peripherals, incorrect body position, and poor habits may be associated with physical discomfort and injury to nerves, tendons, and muscles. Below are some guidelines to avoid injury and ensure optimum comfort while using your Razer RZ01-0557.

- Position your keyboard and monitor directly in front of you with your mouse next to it. Place your elbows next to your side, not too far away and your keyboard within easy reach.
- Adjust the height of your chair and table so that the keyboard and mouse are at or below elbow-height.
- Keep your feet well supported, posture straight and your shoulders relaxed.
- During gameplay, relax your wrist and keep it straight. If you do the same tasks with your hands repeatedly, try not to bend, extend or twist your hands for long periods.
- Do not rest your wrists on hard surfaces for long periods. Use a wrist rest to support your wrist while gaming.

- Customize the keys on your keyboard to suit your style of gaming in order to minimize repetitive or awkward motions while gaming.
- Do not sit in the same position all day. Get up, step away from your desk and do exercises to stretch your arms, shoulders, neck and legs.

If you should experience any physical discomfort while using your mouse, such as pain, numbness, or tingling in your hands, wrists, elbows, shoulders, neck or back, please consult a qualified medical doctor immediately.

## MAINTENANCE AND USE

The Razer RZ01-0557 RZ01-0557 requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the computer and clean it using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap or harsh cleaning agents.

To get the ultimate experience in movement and control, we highly recommend a premium mouse mat from Razer. Some surfaces will cause undue wear on the feet requiring constant care and eventual replacement.

Do note that the sensor of the Razer RZ01-0557 is 'tuned' or optimized especially for the Razer mouse mats. This means that the sensor has been tested extensively to confirm that the Razer RZ01-0557 reads and tracks best on Razer mouse mats.

## BATTERY REPLACEMENT WARNING

Risk of explosion if the battery is replaced by an incorrect type.

This product contain build in battery that need to be removed by a specialist before the product disposal mandatory

Keep the battery away from excessive heat and direct sunlight. Do not place it on heating device such as microwave Owen stoves or radiators

Battery may explode if overheated. Recommended if possible

- 1 ) Risk of explosion if battery is replaced by an incorrect type.
- 2 ) Dispose of used batteries according to the instructions.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and consider removing the

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

#### **Declaration of Conformity**

Hereby, Razer Inc. 9 Pasteur. Irvine. CA 92618, USA declares that the radio equipment type gaming mouse RZ01-0557 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: [razer.com/legal/compliance](https://www.razer.com/legal/compliance)

#### **2.4G equipment**

- Operating frequency range: 2402-2480MHz
- Maximum out power(E.I.R.P): 9.78 dBm (9.51 mW), 2.4G SRD
- Maximum out power(E.I.R.P): 9.68 dBm (9.29 mW), 1Mbps, BLE  
9.73 dBm (9.40 mW), 2Mbps, BLE

#### ENGLISH

The power delivered by the charger shall be between min 2.5 Watts required by the radio equipment, and max 15 Watts in order to achieve the maximum charging speed.

#### FRANÇAIS

La puissance fournie par le chargeur doit être entre, au minimum, 2.5 Watts requis par l'équipement radioélectrique et, au maximum, 15 Watts pour atteindre la vitesse de chargement maximale

#### DEUTSCH

Die Leistung des Ladegeräts muss von einer von der Funkanlage benötigten Mindestleistung von 2.5 Watt bis zu einer zum Erreichen der maximalen Ladegeschwindigkeit benötigten Höchstleistung von 15 Watt reichen.

#### ESPAÑOL

La potencia suministrada por el cargador debe ser de entre un mínimo de 2.5 vatios requeridos por el equipo radioeléctrico y un máximo de 15 vatios a fin de alcanzar la máxima velocidad de carga

#### PORTUGUÊS

A potência fornecida pelo carregador tem de se situar entre um mínimo de 2.5 Watts exigidos pelo equipamento de rádio e um máximo de 15 Watts para que a velocidade de carregamento máxima seja atingida

#### POLSKI

Moc dostarczana przez ładowarkę musi wynosić między minimalnie 2.5 W wymaganych przez urządzenie radiowe a maksymalnie 15 W, aby osiągnąć maksymalną prędkość ładowania
