GETTING STARTED

CHARGING YOUR RZ40-0363

For first time use, attach the charging cable's pin connectors to the charging ports found at the bottom of each temple and connect the charging cable to a USB port. For best results, please fully charge your glasses before using it for the first time. A depleted device will fully charge in about 1.5 hours.

While charging, RZ40-0363 will continuously show its battery level on both indicators, as shown here:

PAIRING TO A MOBILE DEVICE

Open both temples to power on and activate pairing mode. An audio prompt will notify you that your glasses are searching for compatible Bluetooth devices and its status indicators will rapidly blink in blue. Follow your device's instructions to pair it with your RZ40-0363. Once paired, its status indicators will briefly change to static blue.

Once the glasses have been paired, it will automatically try to connect to that paired mobile device every time the glasses are powered on. Your glasses can only connect to one mobile device at a time but will recall pairing for up to 6 devices.

USING YOUR SMART GLASSES

RZ40-0363 APP

Advanced customization just got a whole lot easier for your RZ40-0363. With its mobile app, learn and customize the needed gestures, select from predefined EQs, enable or disable Gaming Mode and much more —anytime, anywhere.

1. Download the mobile app on your mobile device.
2. Launch the app and follow the onscreen instructions.

POWER ON/OFF

To power off the glasses, close both temples. Opening both temples will power it on. An audio prompt will help notify you that your RZ40-0363 is powered on or off.

AUTO SHUTOFF

If the glasses are on standby or left idle for a few minutes, you will hear an audio prompt and then the glasses will power off. To wake, simply close and open both temples again.

GAMING MODE

While connected, triple tap then hold the last tap for at least 2 seconds on any of the touch input areas to activate Gaming Mode. Once enabled, your glasses will function at a lower latency; giving you real-time audio feedback while gaming. Repeat the same gesture to disable Gaming Mode.

PAIRING OPTIONS

Activating Pairing Mode

If you want to pair the glasses to a different device, tap and hold any of the touch input areas for 2 seconds to activate pairing mode. An audio prompt will notify you that your glasses are searching for compatible Bluetooth devices. Simply follow the new device's instructions to pair it with your RZ40-0363.

Removing a Paired Device

Use this option if you want to remove a paired device including all custom gestures. While in pairing mode, triple tap then hold the last tap for at least 2 seconds on any of the touch input areas to remove a paired device and its settings. An audio prompt will notify you that your glasses have removed a device and are searching again for compatible Bluetooth devices. Simply follow the new device's instructions to pair it with your RZ40-0363.

LOW BATTERY

While unplugged, the status indicators will slowly blink in blue to indicate that the glasses need recharging. This sequence will repeat until the battery is drained or the glasses are being charged.

TOUCH INPUT QUICK REFERENCE

The following functions can be accessed from any of the touch input areas and are only available when the glasses are paired to a mobile device.

ACTION	EFFECT	AUDIO PROMPT
Tap	Answer call	Tone
	End call	Tone
	Play/pause media	Tone
Tap and hold for 2 seconds	Reject incoming call	Tone
	Activate virtual assistant	Tone
Tap and hold for 4 seconds	Activate pairing mode	Voice
Double tap	Accept incoming call or switch calls	Tone
	Skip to the next track when playing media	Tone
Triple tap	Return to the previous track when playing media	Tone
Triple tap then hold the last tap for 2 seconds	Enable/disable Gaming Mode when on standby or playing media	None
	When in pairing mode, this will remove a paired device, its app settings, and re-activate pairing mode	Voice

SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your RZ40-0363, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to support.razer.com for assistance.

Do not take apart the device and do not attempt to operate it under abnormal current loads. Doing so will void your warranty.

Handle the glasses with care. Do not bend or expose the temples to undue pressure.

Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and/or switch off the device in order to let the temperature stabilize to an optimal level.

Listening to excessively loud volumes over extended periods of time can damage your hearing. Furthermore, legislation of certain countries permits a maximum sound level of 86db to affect your hearing for 8 hours a day. We therefore recommend that you reduce the volume to a comfortable level when listening for prolonged periods of time. Please, take good care of your hearing.

MAINTENANCE AND USE

The RZ40-0363 requires minimum maintenance to keep it in optimum condition. Once a month we recommend you clean it using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap, harsh cleaning agents, or abrasives.

FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

For more information, refer to the online help system on **razer.com**

FCC Caution Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTICE FOR CANADA

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

CANADIAN SAR

This transmitter must not be co-located or operating in conjunction with any other antenna or Transmitter. This equipment should be installed and operated with a minimum distance of 0 mm between the radiator and your body.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 0 mm entre le radiateur et votre corps.

CANADA CLASS B STATEMENT

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
