

HY-P430A

Thanks for the invite. We've got some pretty cool friends too, you know? Check them out at www.jamaudio.com

Diagram illustrating the removal of the battery cover. The steps are numbered 7 through 9:

7. Press the latch on the back of the device.
8. Lift the battery cover.
9. Remove the battery cover.

1. Plug one end of the cord into the speaker and the other into the headphone jack on your device.
2. Turn on the speaker.
3. Hit PLAY on your device and crank it up—or down if you're lame.

You'll have to play and pause the music from your device, not your speaker. No problem. You're there anyway, right?

Hello? Speakerphone? Yes!

When friends call asking to join the party—and you know they will—answer the phone without disconnecting from your JAM XT. Yes, that's right. Your speaker is a speakerphone too. How amazing is that?

Here's how it works:

1. Make sure your phone and speaker are connected through *Bluetooth* and not on a "break."
2. Answering and ending a call works the same way: simply click the PLAY/PAUSE button on your XT.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your XT for three seconds to ignore the call.

THE COOLEST PART: The XT knows when a call is coming in and pauses the music before ringing. When you hang up, the music starts where it left off—and so does the party. If it's you making the call, just start dialing from your phone, and the XT automatically does its hands-free thing. Isn't it refreshing to know your speaker totally gets you?

Little Bit of Water? No Worries

The smart folks who made this speaker designed it to keep the party going through just about anything (they call it IPX4). But those designers aren't miracle workers. Doing something like sending your speaker for a swim in the deep end will, at some point, fill those holes you need for incredible sound with water—and that's just not going to bode well for anyone or anything. Also, remember to keep the back flap flush with the speaker for the best protection.

The Voice From Within

When your JAM XT isn't rocking out, it can tell you all sorts of things it's doing: when it's ready to pair, paired, receiving an incoming call, ignoring a call, ending a call, running on a full battery, running on half a battery, ready to recharge, charging and powering off.

Just like the global gadget it is, your speaker toggles between several languages or no language at all. Your speaker can parlay with you in English, Spanish, French, or Portuguese. But, making the change between language and tone is as simple as poking a paperclip, safety pin, or the pin included into the small hole on the bottom. Click through until the speaker start speaking your language.

Coming Clean

A soft, dry towel is all you need to clean off your speaker. Using water, harsh cleaners or anything else only starts messing with the mechanics inside. So, yeah, don't do it.

Stuff The Government Makes Us Say

FCC Disclaimer:

Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by HMDX could void the user's authority to operate this equipment.

One Year Limited Warranty
