

Date: 29 September 2021**Declaration on LPI Client Operation Letter**

TO: Federal Communication Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MID 21046

FCC ID: RX3-WBU058LGA

Dear OET,

We, Hon Hai Precision Industry Co., Ltd. , attest that this client device complies with the following requirements of Part 15 E of the FCC's rules for the 6GHz bands:

1. Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.
2. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
3. This device will always initiate transmission under the control of a low power indoor AP or subordinate except for brief transmissions before joining a network.
These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel.
These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
4. Transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.
5. Control of or communications with unmanned aircraft systems, including drones are prohibited.
