

Wireless Wrist Band operation guidance

1. Wear the wrist band as below:

5. APP interface introduction

5.1 There are 4 main features will be displayed on the main page, include "steps taken", "Calories burned", "Distance walked" and "Time walked" in the day.

5.2 Press "Record" to enter the activity record menu. This menu will show you all activities on a daily, weekly, or monthly basis.

5.3 Press "Sleep" to enter the Sleep record menu. This menu will show you all your sleep activities on a daily, weekly, or monthly basis.

2. Parameters:

- Bluetooth version: Bluetooth 4.0
- Input voltage: DC 5V
- Range of application: -20℃-60℃

3.1.To activate the screen, tap/click on the screen twice to display the time as below.

3.2.Tap/click on the screen again to switch between the following modes.

3.5.Charging the Band

Use the supplied charger to charge smart wristband. Once connected properly your device will display "Charging" as below.

3.3.Tap/click on the screen four times to enter the sleep mode.

3.4.Tap/click on the screen four times to exit the sleep mode, and enter the "Time Display"

6.Data Sync

After successful connection, return to main interface, then finish User Setting and Goal Setting, after that, all data from Band will be sync with app software.Besides, there are other three main functions as below:

6.1.Sharing function

In the main interface, click "Share" to social media, slip up or down to view the content sharing, click sharing to view platform and choose one to share.(sharing platform will be different according to different software installed from mobile phone)

6.2.Reminder function :

In the main interface, click "Reminder" to enter reminder setting interface, set sedentary and drinking time. When it is at reminder time, The smart wristband will vibrate for 3 seconds during reminders. Click on the screen once to stop the reminder.

4.Connecting the Activity tracker to the APP

4.1. Click " " and displays connection setting as below picture:

4.2.Tap the "connection setting" then it displays as below picture.

4.3.Tap/click on the screen twice to activate the screen, the App will automatically search for your smart wristband.

4.4Enter search Bluetooth device status , When software appears "SmartFit--xx:xx",click on the green "connection", the App will has a countdown of 10 seconds display,this is the Android system connection method. IOS system only need to click on "connection".

4.5. After click "Connect", at same time, Band device display ten seconds connection countdown as below:

4.6. Once the countdown begins, tap on the activity tracker screen in order to repair. SYNC will appear on the activity tracker screen once paired successfully.

Common problems and solutions

- The screen can not be light up or activated. Please charge the tracker and keep it has enough battery power
- Tracker can not connect to the APP. Please check your phone's version. It should be IOS 8.0 or higher versions, and android 4.3 or higher versions. If the tracker already paired with other devices, then disconnect it first.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
