Dear Madam/Sir,

Subject: Request for Class II Permissive Change

This letter is to request a Class II Permissive Change of the already certified product (FCC ID: RYYWYSAVDXB-E) which was granted on July 29, 2015. The purpose of this request is like follows:

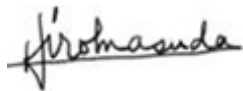

1. To add the grant note for the configuration of simultaneous transmission with another RF transmitter when combining them within a specific host

The difference from the previously certified product is the aforementioned one only.

This Wireless module is installed in Smart Headset manufactured by Seiko Epson Corporation and capable to transmit simultaneously with Bluetooth Low Energy Module (FCC ID: RYYEYSFCN) which is co-located in the Smart Headset.

We carried out the additional measurements and confirmed that this co-located operation meets the applicable FCC regulations.

Sincerely,

Hiroyuki Masuda

Manager

TAIYO YUDEN CO.,LTD.
