

Class II Permissive Change Letter

Date: September 25, 2024

This is to request a Class II permissive change for FCC ID: RZ5-MEDPC-2100 , originally granted on 08/27/2024.

The major changes filed under this application are:

Change #1: Add an antenna and the antenna type(dipole) is different from the original grant.

Change #2: Reduce output power of 2.4G/5G through firmware.

Except for the above differences, the hardware design is identical with the original grant.

Should you have any enquires or comments, please have my best attention.

Sincerely,

A handwritten signature in blue ink, appearing to read "Andrew Wang", written over a horizontal dashed line.
