Request for FCC Class II Permissive Change filing

We are applying for the new host devices (001-0156-03, 2-A0CW-20SLB-M2).

We formally request a Class II Change filing. The reason for this Class II Change filing is that the Sparklan WiFi module is collocated with a FCC certified Sierra EM7565 LTE module.

The Sierra EM7565 certification includes co-location with wi-fi modules, so Sierra EM7565 FCC ID N7NEM75 remains unchanged.

Following is a description of hardware and software changes:

None
