Dear Sir or Madam:

RE: Application for Confidentiality pursuant to CFR47 Section 0.459 and 0.457 for certification of Amplifier iPA-CDMA 1X Bi-directional Amplifier-1900MHz ,
FCC ID: S52M1900-1

UTStarcom Canada Company FRN0012744488 requests that all the schematics, detailed circuit description, detailed block diagrams, detailed operating descriptions, parts lists, internal photos and all copies of these documents submitted for FCC ID: S52M1900-1 remain confidential due to the proprietary commercial information disclosed therein. These documents detail the exact nature of how our product is designed and would rapidly enable a competitor, without significant capital investment, to replicate our product.

Confidentiality for internal photos has been requested since the iPA unit is not sold to the general public and the internal photos would reveal significant design ideas to competitors. The units are sold to licensed wireless operators as sealed units that are professionally installed in various enclosures.

Please direct any questions or comments regarding this request to the undersigned.

Regards,

Joe Perrella, P.Eng.
