

Ailen LLC
P.O. Box 8125
Wilmington, DE 19803

Federal Communications Commission
Lab Division
7435 Oakland Mills Road
Columbia, Maryland 21046

To Whom It May Concern:

I am writing on behalf of Ailen LLC and its affiliates to request pursuant to Sections 0.457 and 0.459 of the Federal Communication Commission's Rules (47 C.F.R §§ 0.457, 0.459) that the application for equipment authorization for FCC ID S59-1214 and the accompanying exhibits listed below be withheld from public disclosure indefinitely:

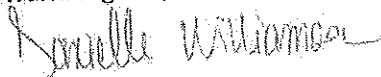

Schematics
Operational Description
Block Diagram of RF

The information contained in the application and the aforementioned exhibits include highly proprietary and confidential trade secrets and other information about the product, including design and technical details. In our ordinary course of business, we take extreme care to limit the disclosure of this information to only those employees and services providers who have agreed to keep such information confidential and have a need to know such information in order to perform their job responsibilities. If our competitors were to gain access to this information, they will gain an unfair competitive advantage over us by learning about our product development and manufacturing processes. We believe this information should remain confidential indefinitely, as our future design and manufacturing innovations will likely be based on the design and manufacturing information described in the application and aforementioned exhibits, and therefore the public disclosure of these materials could adversely affect us far into the future.

For your convenience, I have clearly marked the materials that we are seeking to be kept confidential in the application.

Thank you for your time and assistance.

Warm regards,

Danielle Williamson
Ailen LLC
