Integration Manual (FCC Change In ID)

Type of Device: **RF Module**

FCC ID: **S5H-CWG2**

To whom it may concern:

The new Grantee "**Siemens Healthineers AG** " received permission from the original Grantee "**Amimon Ltd. (Transfer of Control to "Rocoto Inc." is in progress)**" to use their detailed integration manuals as submitted for the original certifications (FCC ID: **VQSAMNPTTX01**), because this modular approved transmitter will only be integrated by the new Grantee or his dedicated OEM into final host devices marketed by the Grantee and never be marketed separately to any third parties – therefore no individual integration manual for marketing purposes is necessary.

The original integration instructions include details about the integration of module, certified antennas and further guidance to assure compliance of the final host device with the applicable regulations.

The labelling of the RF Module and the host devices into which this module is integrated will reflect the declared product identification by the new Grantee.

If you have any questions, please feel free to contact me.

A handwritten signature in blue ink, appearing to read 'Sabrina Berghahn', with a date stamp below it.
