Segensworth Road,  
Fareham,  
Hampshire,  
PO15 5RL

Dear Sir/Madam,

We, IVT Corporation, address: 5/F, Zhongguancun Fazhan Building No. 12, Shangdi Xinxi Road, Haidian District, CHINA, would like to request modular approval for the following designated product:

Product Name: IVT Corporation i145 module

FCC ID: S78-IVTI145

The modular complies with the requirements of KDB 996369 and FCC Part 15 section 15.212.

| Modular approval requirement                                                                                                                                                                                               | Yes | No * |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|------|
| The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;                                | yes |      |
| The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;                                                                        | yes |      |
| The module must contain power supply regulation on the module;                                                                                                                                                             | yes |      |
| The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b); | yes |      |
| The module must demonstrate compliance in a stand-alone configuration;                                                                                                                                                     | yes |      |
| The module must be labelled with its permanently affixed FCC ID label, or use an electronic display.                                                                                                                       | yes |      |
| The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee;                                                         | yes |      |
| The module must comply with RF exposure requirements                                                                                                                                                                       | yes |      |

\* Please provide a detailed explanation if the answer is "No."

Yours Sincerely,
