

Internal

The image shows the internal components of the device, laid out on a wooden surface next to a ruler for scale. The components include a main circuit board with various electronic components, a microphone, a speaker, and several connectors and cables. The ruler indicates the size of the components, with the main board being approximately 10 cm wide and 5 cm high. The microphone and speaker are also shown, with the microphone being approximately 2 cm in diameter and the speaker being approximately 3 cm in diameter. The connectors and cables are also shown, with the cables being approximately 10 cm long. The components are labeled with various numbers and letters, including '10', '20', '30', '40', '50', '60', '70', '80', '90', '100', '110', '120', '130', '140', '150', '160', '170', '180', '190',
