

Dec 23, 2025

Applicant: Sena Technologies Co., Ltd.**Model name: WiFiCom Squad****IC: S7A-SP185**

To. Whom it may concern:

- I. The module was implemented in a manner fully consistent with the integration instructions, and no changes were made to the module.

Module certification information

- FCC ID: VPYLBEE59B1LV

- Grant date of module: April 16, 2019

- II. The module has been certified for the following modes:

- BT: BDR, EDR, BLE 1M, BLE 2M

- WLAN: 802.11b/g/n20/a/an20/ac20

However, in the final product(=WiFiCom Squad), only the following modes are used:

- BT: BDR, EDR, BLE 1M, BLE 2M

- WLAN: 802.11b/g/n20/a/an20

In addition, although the module has been certified for 5 GHz WLAN operation in the 5150–5350 MHz and 5470–5850 MHz bands, the final product only operates in the 5250–5350 MHz and 5470–5850 MHz bands.

Sincerely,

Seunghyun KIM / Research Engineer
