Ref: Description of model differences covered by the HVINs

IC: 35045-W200

Dear Sir or Madam,

NIVELCO Process Control Co ("the applicant") declares that the product family for which authorization is sought is built in following hardware variants, relevant from EMC and RF compliance. Both designs use the same electronics, the design differences encoded by the hardware IDs are solely the following:

- Hardware variant – **W24**: 1.5" inch antenna module
- Hardware variant – **WD3**: 3" inch antenna module

In addition, the product family has also some optional variants not related EMC and RF compliance, like the specification of the technological connections (threaded, flange, tiltable flange, or tri-clamp), and the material choice of the enclosure (PBT, painted aluminium or stain-less steel), and similar.

If you have any questions, please contact us.

Sincerely,

NIVELCO
PROCESS CONTROL CO.
H-1043 Budapest, Dugonics u. 11.
