Antenna Top View

 A photograph of the bottom view of a rectangular antenna. The antenna is a light-colored, possibly aluminum, plate with several small circular holes. It is placed on a blue textured surface. A yellow ruler is positioned below the antenna, showing measurements in inches and centimeters. Two white labels are attached to the top of the antenna: one on the left with a black arrow pointing down and the text 'K100000000', and one on the right with a black arrow pointing down and the text 'K100000000'. A yellow warning label is also visible on the right side of the antenna, featuring a triangle with an exclamation mark and the word 'DANGER'. A small white label with a CE mark and other text is located on the left side of the antenna.
