

December 14th , 2016

Federal Communications Commission
Washington, DC 20554.

Dear Sir or Madam:

Pursuant to FCC CFR §2.1043, Nordic ID Oy hereby requests a class 2 permissive change for WLAN / Bluetooth radio module SDC-SSD40NBT with FCC ID: SCC-SDC SSD40NBT.

"This device is granted by FCC for use in Mobile only configurations in which the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and not be co located with any other transmitters except in accordance with FCC multi transmitter product procedures."

Nordic ID would like to use this module into portable host device(s) designed by Nordic ID.

Due to the fact that we would like to have module mentioned in above in a portable host device(s) and use device closer than 20cm from human body, we have made SAR test exclusion calculation to show minimum allowed separation distances and maximum allowed output powers. Calculation will be attached with this application.

Sincerely,

A handwritten signature in blue ink, reading "Rauno Nikkilä".
