⚠ EN/ Switch off your device when in areas with a potentially explosive atmosphere. Sparks in such areas could cause fire or an explosion. "Potentially explosive environments" include areas where the air contains chemicals or particles such as dust or other powders. Potentially explosive areas are often, but not necessarily always, clearly marked. Obey all signs and instructions.

DE/ Schalten Sie das Gerät in Gebieten mit Explosionsgefahr aus. In solchen Bereichen können Funken einen Brand oder eine Explosion auslösen. Explosionsgefährdete Umgebungen enthalten Chemikalien oder andere gefährliche Partikel in der Luft. Explosionsgefährdete Bereiche sind oftmals, aber nicht notwendigerweise immer deutlich gekennzeichnet. Befolgen Sie hier die Schilder und Anweisungen.

FR/ Eteignez votre appareil à l'intérieur des zones potentiellement explosives. Des étincelles dans ces zones peuvent provoquer un incendie ou une explosion. Les zones potentiellement explosives incluent des zones où l'air contient des produits chimiques ou des particules comme de la poussière ou d'autre type de poudres. Les zones potentiellement explosives sont souvent, mais pas forcément toujours, clairement indiquées. Obéissez strictement aux signes et instructions.

ES/ Apagar el dispositivo dentro de las zonas potencialmente explosivas. Las chispas en estas áreas podrían causar un incendio o una explosión. Los entornos potencialmente explosivos incluyen áreas donde el aire contiene productos químicos o partículas, como polvo. Zonas potencialmente explosivas suelen estar (aunque no necesariamente siempre) indicadas claramente. Obedecer todas las señales y las instrucciones.

IT/ Spegner il dispositivo nelle aree dove l'atmosfera è potenzialmente esplosiva. Scintille in tali aree

potrebbero provocare un incendio o un'esplosione. "Ambienti Potenzialmente esplosivi" sono, per esempio, aree in cui l'aria contiene sostanze chimiche o altre particelle, come polveri infiammabili. Le aree a rischio di esplosione sono spesso, ma non necessariamente, chiaramente indicate. Rispettare tutti i segnali e le istruzioni.

PT/ Desligue o dispositivo quando estiver em ambiente com potencial atmosfera explosiva. Faiscas em tais áreas podem provocar um incêndio ou explosão. Ambientes potencialmente explosivos incluem áreas onde o ar contém produtos químicos ou partículas como poeira ou outros pós. Ambientes potencialmente explosivos são frequentemente, mas não necessariamente sempre, claramente identificadas. Obedecer todos os sinais e instruções.

FCC COMPLIANCE STATEMENT

Nordic ID Morphic & Nordic ID Merlin: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the hand-held equipment.

FCC COMPLIANCE NOTICE

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

IC COMPLIANCE STATEMENT

Nordic ID Morphic & Nordic ID Merlin: This device complies with Canadian radio regulation.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

EN/ This Class B digital apparatus complies with Canadian ICES-003.

FR/ Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada. FCC COMPLIANCE STATEMENT

Nordic ID Sampo & Nordic ID Stix: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the hand-held equipment.

FCC COMPLIANCE NOTICE

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

IC COMPLIANCE STATEMENT

Nordic ID Sampo & Nordic ID Stix: This device complies with Canadian radio regulation. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

EN/ This Class B digital apparatus complies with Canadian ICES-003.

FR/ Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the hand-held equipment.

To prevent radio interference to the licensed service, this device is intended to be operated indoors and away from windows to provide maximum shielding. Equipment that is used outdoors is subject to licensing.

The term "IC:" before the equipment certification number only signifies that the Industry Canada technical specifications were met.

DEFINITIONS

“Device” means the Nordic ID equipment You acquired from Nordic ID or one of its resellers and on which the Software was pre-installed or onto which it is to be installed.

“Software” means the computer program(s) licensed and installed on the Device and/or any Revisions thereto. Software may include computer programs

made by Nordic ID as well as operating systems and application programs by third party licensors or other software suppliers. The Software includes any disks or media on which it is recorded and any Documentation.

“Documentation” means the materials accompanying the Software which describe its functions and how to install and use the Software.

“Revision” means any correction, modification, update, enhancement, or new version of the Software or Documentation whether printed or in electronic format (including but not limited to on-line documentation).

“You” or “Your” refers to the end user licensed to use the Software under the License Terms.

“Nordic ID” means Nordic ID Oy, a company incorporated in Salo, Finland.

PROPRIETARY RIGHTS AND LICENSE

You agree that the Software constitute trade secrets and/or copyrighted material of Nordic ID, its licensors, or other software suppliers. All rights, title and interest in and to the Software (including, without limitation, any images, photographs, animations, video, audio, music, text, and applets incorporated into the Software, the accompanying media and printed materials), and any copies of the Software are owned by Nordic ID, its licensors or other software suppliers. You acknowledge and agree that nothing in the License Terms gives You any right, title or interest in and to the Software except the limited rights expressly granted herein. You agree to maintain and reproduce all copyright and other proprietary notices of Software.

Nordic ID hereby grants You a license to use the Software subject to the following terms and conditions:

Unless expressly provided in the Documentation, You may use the Software only as embedded in, for execution on, or (where the applicable Documentation permits installation on non-Nordic ID equipment) for communication with Device. You have no right to use Revisions unless You, at the time of acquiring such Revision hold a valid license to the original Software and have paid the applicable license fees (if any)

The Software is licensed, not sold. Nordic ID hereby grants You a non-exclusive, terminable, limited license to use the Software on the Device(s) for Your own internal business purposes subject to payment of

applicable license fees (if required). No other right or license is granted or implied. You agree not to modify copy, distribute or otherwise disclose the Software without the prior written consent of Nordic ID. You further agree not to reverse engineer, disassemble, or de-compile the Software, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation. This license shall terminate when You no longer own or You cease to use the Device(s) on which You are licensed to use the Software. Your rights to the Software do not include any license, right, power or authority to subject the Software in whole or in part to any of the terms of an Excluded License. “Excluded License” means any license that requires as a condition of use, modification and/or distribution of Software subject to Excluded License, that such Software of other software combined or distributed with such software be a) disclosed or distributed in source code form; b) licensed for the purpose of making derivative works; or c) redistributable at no charge

You may not sell, lease, rent, assign, sublicense or transfer the Software except that You may transfer all of Your rights under the License Terms as part of a sale or transfer of the Device(s). Such a sale or transfer may only be made if You retain no copies of the Software. You transfer all of the Software (including any media, archival copies, Revisions and Documentation) and the recipient agrees to abide by the terms of the License Terms. A Revision may not be transferred unless You transfer all prior versions of the Software. In the event of any such transfer, You shall remain liable and responsible to Nordic ID for the performance of all of Your duties and obligations under the License Terms.

You agree to grant Nordic ID and its independent accountants the right to examine Your books, accounts and records to verify compliance with the License Terms. In the event such an audit reveals non-compliance, You shall promptly sustain compliance and pay Nordic ID the applicable license fees (if any)

DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY

The software is not fault tolerant and is not designed,

manufactured or intended for any use requiring fail-safe performance in which the failure of Software could lead to death, serious personal injury, severe physical or environmental damage ("High Risk Activities"). This includes the operation of aircraft, aircraft navigation or communication systems, direct life support machines or weapons systems or nuclear facilities. Use of Device in High Risk Activities is not licensed. The Software is not warranted to be compatible with all applications or environments. Contact the reseller You purchased the Device for information about hardware and/or software compatibility.

NO WARRANTIES FOR THE SOFTWARE. THE SOFTWARE IS PROVIDED AS IS AND WITH ALL FAULTS. NORDIC ID, ITS LICENSORS AND OTHER SOFTWARE SUPPLIERS DISCLAIM ANY AND ALL PROMISES, REPRESENTATIONS, AND WARRANTIES WITH RESPECT TO THE SOFTWARE, INCLUDING ITS CONDITION, ITS CONFORMITY TO ANY REPRESENTATION OR DESCRIPTION, THE EXISTENCE OF ANY LATENT OR PATENT DEFECTS, ANY NEGLIGENCE AND ITS MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR NON-INFRINGEMENT. THE ENTIRE RISK WITH RESPECT TO THE SOFTWARE IS WITH YOU. IF YOU HAVE RECEIVED ANY WARRANTIES REGARDING THE SOFTWARE, THOSE WARRANTIES DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, NORDIC ID, ITS LICENSORS OR ITS SOFTWARE SUPPLIERS.

EXCEPT AS PROHIBITED BY LAW, NEITHER NORDIC ID NOR ANY OF ITS SOFTWARE SUPPLIERS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE SOFTWARE. THIS LIMITATION SHALL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL NORDIC ID OR NORDIC ID'S SOFTWARE SUPPLIERS BE LIABLE FOR ANY AMOUNT IN EXCESS OF THE INITIAL LICENSE FEE NORDIC ID RECEIVED FROM YOU FOR THE NORDIC ID DEVICE IN THE CASE OF NORDIC ID OR U.S. TWO HUNDRED AND FIFTY DOLLARS (U.S. \$250.00) IN THE CASE OF NORDIC ID'S LICENSORS OR SOFTWARE SUPPLIERS.

TERMINATION

Nordic ID, its licensors and its software suppliers reserve the right to terminate the License Terms if You violate any term or condition of the License Terms. If You assert any claims against Nordic ID, its licensors or software suppliers over patents that You think might apply to Software (including a cross-claim or counterclaim in a lawsuit) Your license to the Software ends automatically.

In the event of termination, You must stop using the Software and You shall immediately return to Nordic ID, all Software and any copies thereof and related Documentation and certify to Nordic ID that You have done so. The provisions of this paragraph of the License Terms and any other material provisions of the License Terms shall survive any termination of the License Terms.

GENERAL PROVISIONS

You agree that You will not export or import any portion of the Software to any country that is not party to either: (i) The Berne Convention of 1989, (ii) The Universal Copyright Convention, (iii) The Buenos Aires Convention, or (iv) a treaty with the United States of America (U.S.A.) which allows for the recognition of the property rights claimed by Nordic ID or its licensors and other software suppliers in the Software. Further the Devices are subject to United States and European Union export laws and regulations. You agree to comply with all domestic and international export laws and regulations that apply to the Devices. These laws include restrictions on destinations, end users and end use. U.S. Government Restricted Rights. If the Device or the Software is acquired under the terms of a U.S. Government contract, use, duplication, and disclosure are subject to the terms of this license and the restrictions contained in the Rights in Technical Data and Computer Software clause at 252.227-7013 (DOD contracts); and subdivisions (a) through (d) of 52.227-19 as applicable.

The License Terms shall be governed by and construed under the laws of Finland. Any dispute arising out of the License Terms shall be finally settled in arbitration by a sole arbitrator in accordance

with the Arbitration Rules of the Central Chamber of Commerce, in Turku, Finland and in English language. However Nordic ID shall be entitled to seek injunctive relief in a competent court. Nordic ID may assign the License Terms without the consent of You. If any portion hereof is found to be void or enforceable, the remaining portions of this Agreement shall remain in full force and effect. Except as expressly provided herein, this Agreement constitutes the entire agreement with respect to the license of Software and supersedes any conflicting or additional terms.
