

Attention:
Application Examiner
Reviewing Engineer

Re: Requested for confidentiality

Application: Powerwave Technologies

FCC ID: SCEAR4240, SCEAR3430

To Whom It May Concern:

Request is hereby submitted by Powerwave Technologies, to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) of the FCC Rules.

In particular, the following sections of the application are to be kept confidential:

- Schematics
- Bill of Material
- Detailed Block diagrams
- Internal photos

Rationale for request for confidentiality:

Powerwave Technologies has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

SCEAR4240 and SCEAR3430 have locks to protect unauthorized access to the equipment.

(For FCC certification: delete for TCB certification: The fee for confidentiality has been submitted along with the fee for certification) If you have questions or need further information, please contact the undersigned.

Sincerely,

Product Manager
Powerwave Technologies
