Test Report.pdf

Turn-up
Procedure.pdf

User Manual.pdf

Dear Mike:

How are you!

Firstly we are really grateful for your giving us good suggestion. Below are our response, Would you please do us a favor to check them again! if there are any question in these information, and E-mail me, please. thank you!

Question #1

Maybe the User Manual is larger than the valid file size while we submitting it at the first time. We submit it again now.

Question #2

The Tune-up procedure has been submitted individually this time.

Question #3

Retest had conducted to evaluate the compliance. The test data had been added to the revised report correspondingly.

>Question #1: User Manual does not include RF exposure information to user.

>Suggest wording may be "

>

>SAFETY INFORMATION

>Your wireless handheld portable transceiver contains a low power

>transmitter. When the Push-To-Talk (PTT) button is pressed, it sends out

>radio frequency signals. The device is authorized to operate at a duty

>factor not to exceed fifty percent.

>CAUTION

>To maintain compliance with the FCC's RF exposure guidelines, hold the

>transmitter and antenna at least two inches from your face and speak in a

>normal voice, with the antenna pointed up and away from your face. If you

>wear the handset on your body while using the headset accessory, use only

>the supplied belt clip for this product. When transmitting, take it out of

>the belt to ensure the antenna is at least one inch (2.5cm) from your body.

>Use only the supplied antenna. Unauthorized antennas, modifications, or

>attachments could damage the transmitter and may violate FCC regulations."
>
>Please provide revised User Manual to comply this requirement.
>
>Question #2:Tune up procedure is included in the test report but the test
>report is a secured file. Please either provide a unlocked PDF file or
>provide tune up procedure as separate file.
>
>Question #3: As spectrum plots indicated, the audio modulation did not apply
>to the EUT while doing modulation mask and occupied bandwidth. Please redo
>the tests, documented the test diagram and test equipment used. Submit the
>test data.
>
>Best Regards
