

Operational Description:
Product CIX 3000Blue
Bluetooth Hands Free Terminal

Manufacturer	
Product	CIX 3000 Blue
Use of the equipment	Bluetooth Handsfree Terminal for in-car use. Main Functionality: pairing and connecting with a mobile phone. Handsfree telephone conversation. Accept/decline an incoming call. Repeat the latest outgoing call.
Power supply	10 .. 16 V from car battery
Frequency band	ISM, 2400 .. 2483.5 MHz
Number of channels	79, random hopping
Channel frequencies, spacing	(2402+k) MHz, k=0..78, 1 MHz
BT Power class	2 (-6..+4 dBm)
Rated RF output power	1 mW (0 dBm) nominal
Modulation type	GFSK
Mode of operation	duplex
Duty cycle	0 .. 30 % (depending on load)
Bit rate of transmission	1 Mbit/sec
Antenna type	internal antenna
