

TOWER SPEAKER SYSTEM

with Bluetooth® Wireless Technology

Owner's Manual

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

Model: CHT953

IMPORTANT SAFETY INSTRUCTION

INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WARNING:
This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. Modifications not authorized by the manufacturer may void users authority to operate this device.

Before using the unit, be sure to read all operating instructions carefully. Please note that these are general precautions and may not pertain to your unit.

- Read these instructions.**
All the safety and operating instructions should be read before the product is operated.
- Keep these instructions.**
The safety and operating instructions should be retained for future reference.
- Heed all warnings.**
All warnings on the product and in the operating instructions should be adhered to.
- Follow all instructions.**
All operating and use instructions should be followed.
- Do not use this apparatus near water.**
Do not use this product near water and moisture, for example: near a bathtub, washbowl, kitchen sink or laundry tub; in a wet basement; or near a swimming pool.
- Clean only with dry cloth.**
Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a dry cloth for cleaning.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.**
Slots and openings in the cabinet and in the back or bottom are provided for ventilation, to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat source. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.**
Do not defeat the safety purpose of the polarized or grounding-type plug.
A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.**
- Only use attachments/accessories specified by the manufacturer.**
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.**
An appliance and cart combination should be moved with care. Quick stops, excessive force and uneven surfaces may cause the appliance and cart combination to overturn.
- Unplug this apparatus during lightning storms or when unused for long periods of time.**
To protect your product from a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture does not operate normally, or has been dropped.**
- Power source**
This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your appliance dealer or local power company. For products intended to operate from battery power, or other source, refer to the operation instructions.

- Power lines**
An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
- Overloading**
Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.
- Object and liquid entry**
Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short out parts that could result in fire or electric shock. Never spill or spray any type of liquid on the product.
- Outdoor antenna grounding**
If an outside antenna is connected to the product, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. Section 810 of the National Electric Code (ANSI/NFPA 70) provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge product, size of grounding conductors, location of antenna-discharge product, connection to grounding electrodes and requirements for the grounding electrodes.
- Service**
Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- Replacement parts**
When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer or those that have the same characteristics as the original parts. Unauthorized substitutions may result in fire or electric shock or other hazards.
- Safety check**
Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operation condition.
- Wall or ceiling mounting**
The product should be mounted to a wall or ceiling only as recommended by the manufacturer.
- Damage requiring service**
Unplug this product from the wall outlet and refer service to qualified service personnel under the following conditions:
 - When the power-supply cord or plug is damaged.
 - If liquid has been spilled or objects have fallen into the product.
 - If the product has been exposed to rain or water.
 - If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions, as an adjustment of other controls may result in damage and will and require extensive work by a qualified technician to restore in the product to its normal operation.
 - If the product has been dropped or the cabinet has been damaged.
 - When the product exhibits a distinct change in performance-this indicates a need for service.
- Note to CATV system installer**
This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

NOTE: Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way such as the following: the power-supply cord or plug has been damaged, liquid has been spilled into the unit, the unit has been exposed to rain or moisture, the unit has been dropped or the unit does not operate normally.

POWER SOURCE

Insert the small plug from the supplied AC/DC Adaptor to the DC IN Jack on the rear of unit. Insert the AC/DC Adaptor to a wall outlet having AC 100-240V~, 50/60Hz.

NOTE: This AC/DC Adaptor is intended to be correctly orientated in a vertical or floor mount position.

INSTALLATION

1. Main Body
2. Speaker Net

NOTE: The speaker net can be taken out and reassembled as the figures above.

4

LOCATION CONTROLS

1. DC IN Jack (DC 12V, 1A)
2. (Standby) Button
3. INDICATOR
4. (Skip Forward) Button
5. (Play/Pause) Button
6. (Skip Backward) Button
7. (Volume Down) Button
8. (Volume Up) Button
9. AUX (In) Jack

5

OPERATION:

- BT (Blue Tooth):**
In first time use or re-pairing the unit to new BT Device, pairing the unit to external BT Device as below:
1. Connect the supplied AC/DC Adaptor to the unit and AC wall outlet as previous procedures. The Red Indicator on the top of unit will illuminate.
 2. Press and hold the (Standby) Button on the top of unit until the color of Indicator turned to Blue and blinking. **(Note: Make sure the AUX In Connection Cable had NOT insert into the AUX (In) Jack. Otherwise, BT will not functioning.)**
 3. Power on the external BT Device and enter to BT searching mode. Start pairing as the on screen instructions on the external BT Device. After paired, the Blue Indicator will stop blinking. (For details pairing procedures, please refer to the user's manual of your BT Device.)
- Notes:**
- When the external BT Device searched the unit, our model number "CHT953" will appear on the display of the external BT Device.
 - Pairing code "0000" or "1234" may need to enter.

- Normal operation after paired:**
1. Turn on the BT function of the external BT Device.
 2. Press and hold the (Standby) Button on the top of unit until the color of Indicator turned to Blue and blinking to power on it from standby mode.
 3. Wait a few seconds until the unit paired to the external BT Device automatically. (The Blue Indicator will stop blinking.)
 4. Plays the music in the paired BT Device as usual.
 5. During playback:
 - Press the (Volume Down) or (Volume Up) Button to adjust volume level.
 - Press the (Play/Pause) Button on the unit to pause. Press again to resume normal playback.
 - Press the (Skip Forward) or (Skip Backward) Button repeatedly to skip tracks.
 6. When finished, press and hold the (Standby) Button to turn off (Standby mode) the unit.

- AUX 1**
1. Connect the external Audio Player to the unit as the figure below.
 2. Press and hold the (Standby) Button on the top of unit until the color of Indicator turned to Blue to power on the unit from standby mode
 3. Plays the music in the connected Audio Player as usual. (Make sure the sound level of the connected Audio Player is set to high level. Otherwise, sound from this unit is weak.)
 4. During listening, press the (Volume Down) or (Volume Up) Button to adjust volume level.
 5. When finished, press and hold the (Standby) Button to turn off (Standby mode) the unit.
- Note: Make sure the AUX In Connection Cable had NOT insert into the AUX (In) Jack. Otherwise, BT will not functioning. Unplug the AUX In Connection Cable from the AUX (In) Jack before use BT.**

6

GENERAL SPECIFICATIONS

Power Source: DC 12V, 1A
Impedance of Speakers: 4 Ohms, 8W X 2
Audio Power: 5W X 2 (Total 10W, RMS)
BT Version: 2.1+EDR
BT Effective range: 32 feet in open area

Accessories:
1 x AC/DC Adaptor (Input: AC 100-240V~, 50/60Hz 0.3A; Output DC 12V, 1A)
1 x Audio Connection Cable with 3.5mm Stereo plugs
1 x User's Manual

LIMITED WARRANTY

Craig warrants this product to be free from manufacturing defects in material and workmanship under normal use for a period of 90 days from date of purchase. If service is required, please return the product to the store where it was purchased for exchange; or, pack the unit in the original packing material with all accessories if applicable, a copy of your sales receipt and a Cashier's check or Money Order for \$7.00 (to cover shipping and handling costs) payable to Craig Electronics Inc. For consumers in Canada, please make sure that the cashier check or money order is redeemable through a U.S. bank. Ship your product freight pre-paid. Your unit will be repaired, replaced or if the unit can not be repaired or replaced, a refund will be forwarded to you within four weeks of receipt of your unit. Please ship your unit to:

Craig Electronics Inc.
1160 NW 163 Drive
Miami, FL 33169

This warranty is void if the product has been: a) Used in a commercial application or rental. b) Damaged through misuse, negligence, or abuse. c) Modified or repaired by anyone other than an authorized Craig service center. d) Damaged because it is improperly connected to any other equipment.
Note: This warranty does not cover: a) Ordinary adjustments as outlined in the Owner's Manual which can be performed by the customer. b) Damage to equipment not properly connected to the product. c) Any cost incurred in shipping the product for repair. d) Damage to the product not used in the USA.

This warranty is not transferable and only applies to the original purchase. Any implied warranties, including the warranty of merchantability, are limited in duration to the period of this expressed warranty and no warranty whether expressed or implied shall apply to the product thereafter.

Under no circumstance shall Craig be liable for any loss or consequential damage arising out of the use of this product. This warranty gives specific legal rights. However, you may have other rights which may vary from state to state. Some states do not allow limitations on implied warranties or exclusion of consequential damage. Therefore, these restrictions may not apply to you.

FCC RF Exposure Information and Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
- This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
