

Cont. AF

Enable the continuous AF to be able to continuously focus automatically when taking pictures.

- Off
- On

Face Detection

For detecting and focusing on faces to make all faces as clear as possible in photo mode.

1. Hold the camera steadily and then focus on the object to detect its face. A focus frame will appear at the face on the screen when a face is detected.

2. Press the shutter button half-way down to focus. The LCD will show a green focus frame when the subject is in focus.

3. Press the shutter button all the way down to take pictures.

The closed eyes detection is usually on. If the camera detects in the course of quick review there is a face with eyes closed, a prompt of closed eyes will appear .
