Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for  
FCC ID: SH6MDBT42V, Original grant date: August 16, 2020

The major change filed under this application is :

One passive filter has been added to the receiver RF path to improve receiver sensitivity and overall reception performance. In addition, minor PCB layout changes were implemented to accommodate the component addition.

An EMC evaluation was conducted on the modified design, and the results confirmed that the changes do not impact the RF characteristics of the module. There are no changes to the transmitter circuitry, operating frequency range, RF output power, modulation scheme, antenna type, or antenna gain.

The modification affects receive-only circuitry and is intended solely to enhance receiver performance.

Sincerely,

(Signature)
