A close-up photograph of a metallic plate, likely part of a medical device. The plate is light-colored and shows signs of wear and discoloration. In the center, there is a circular opening with a multi-layered, concentric structure. The innermost part of this opening is a small, yellowish-gold ring. Surrounding this central feature are four screws, each with a cross-shaped head, positioned at the corners of a square. The screws are also metallic and show some wear. The overall appearance is that of a precision-engineered component.
