before use and retain for future reference

Guarantee

This product is guaranteed for twelve months from the date of original purchase.
If any defect should occur due to faulty materials or workmanship, the unit will either be replaced or refunded at our discretion.

You will need to have your receipt or proof of purchase.

The following conditions apply:

- The product must be returned to the retailer with original proof of purchase.
- It is only valid in the UK.
- It does not cover wear and tear, damage, misuse or consumable parts.
- The product must be correctly installed and operated in accordance with the instructions contained in the instruction manual.
- The product must be used solely for domestic purposes.
- The guarantee will be rendered invalid if the product is re-sold or has been damaged by inexpert repair.
- The guarantee is in addition to, and does not diminish your statutory or legal rights.

Cleaning & Maintenance

Unplug the product from the supply if it is left unattended and before cleaning.
NEVER immerse the product into water and use a dry cloth for cleaning.

Do's and Don'ts

Read the following recommendations before using the speaker. Following these you will be able to enjoy the product for many years.

- Do not expose the speaker to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the speaker.
- Do not expose the speaker to extremely high or low temperature as this will shorten the life of electronic devices or distort certain plastic parts.
- Don't dispose of the speaker in a fire as it will result in an explosion.
- Don't expose the speaker to contact with sharp objects as this will cause scratches and damage.
- Don't let the speaker drop on to the floor. The internal circuitry might get damaged.
- Don't attempt to disassemble the speaker as it may get damaged if you are not professional.
- Do not expose the speakers to heat or fire. Avoid storage in direct sunlight.
- Do not subject the speakers to mechanical shock.
- Don't put the real fish.

INSTRUCTION FOR USE

Fill the Distilled Water

Please place your speaker on a flat surface. Fill the tap water and put the fish to the water tank. Water injection rate is not exceeding the maximum water level, then put on the lid for closing.

Connection to the Power Supply:

Plug the main lead into the Mains socket located at back of your speaker ensuring that the plug is pushed fully into the socket. Plug the other end of the mains lead into a wall socket and switch on the wall socket.

Pairing the speaker with Bluetooth devices (Phone or Music Device)

Remove AUX cable from AUX input (7)
Turn ON the Bluetooth function ON/OFF switch you will hear "Bluetooth music play system has been turned on", from speaker and you also hear "Bluetooth waiting for pairing" after 20 second
Turn on the Bluetooth function on your Device (Mobile Phone or Tablet). Please refer to manufacturer's instructions on enabling Bluetooth on your device.

Once you have turned on Bluetooth on your device, select the device "**BOOMBTZ5**" from the list of available Bluetooth devices.

If required, enter the password '0000' to confirm to pairing.
Once paired successfully, you will hear "Bluetooth pairing successfully" from speaker .

The speaker will remember this device and will pair automatically when the device's Bluetooth is activated and in range. You do not need to pair any previously connected devices again. Please refer to your device's user manual for further information.

Function Summary:

Listening to Music

Once the speaker is paired with your device you can stream music wirelessly through the speaker. Should you encounter any problems while streaming please refer your device's user manual for further information.

When you are listening to music, you need to control the volume up/volume down/Next track/Previous track/Pause/Play through your source device.

AUX cable

You may also connect any device with a socket using the 3.5mm audio cable (included). Connect this cable to your device and to the AUX input (7).

Note: When connect AUX cable, the BT mode will disconnect.

Adjust the number of bubbles

1. To increase the number of bubbles, please rotate anti-clockwise of the control knob
2. To reduce the number of bubbles, please rotate clockwise of the control knob.

Note: Do not over tighten the bubble level control. This will damage the control and render it unusable.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
