

WR-1

802.11ac Wireless Router
with BakPak

BakPak
Enabled

QUICK START GUIDE

Introduction

The Pakedge WR-1 Wireless Router gives you the convenience of a high-throughput wired router integrated with an 802.11ac Wave 2 wireless access point. The router has advanced features like port forwarding and static routes, while also supporting UPnP for simple compatibility with common consumer devices. The WR-1 also integrates the BakPak Management sub-agent, which means that you can access the power of BakPak to monitor your WR-1 from anywhere in the world.

Key features:

- BakPak built in: Manage the WR-1 from the standard BakPak interface.
- 500+ Mbps WAN-to-LAN firewall throughput
- Secure VPN: Support for PPTP and OpenVPN
- BakPakDDNS: Free Dynamic DNS service built in
- 802.11ac Wave 2 2x2 wireless
- Simple-to-use web GUI

Package contents

- (1) WR-1 Router
- (1) Power adapter
- (1) Quick Start Guide
- (1) Ethernet cable

User guide

- For more detailed instructions for this device and for the BakPak Management Sub-agent, refer to the *WR-1 User Guide* (pkdgc.co/wr1-ug).

Specifications

- System requirements: Windows or Mac PC with an Ethernet interface.

Overview

A Power

B Internet

C LAN port activity

D 2.4 GHz active

E 5 GHz active

F RESET button

G USB port

H LAN ports

I WAN (to modem/Internet) port

J Power connector

Installing

Tools required:

- Computer with Ethernet interface and a web browser
- Ethernet cable

To install the unit:

- 1** Open the box and remove the WR-1.
- 2** Ensure that the unit is physically mounted away from obstructions that could interfere with the wireless signal, such as metal racks or other wireless transmitting electronic devices.
- 3** Connect an Ethernet cable from your ISP modem to the **WAN** port on the WR-1.
- 4** Connect power to the WR-1.

You are now ready to configure the unit to allow Internet access and register with BakPak.

Logging in

- 1 After power is connected and a computer is connected to the LAN port, enter the WR-1's IP address into the address bar of your web browser. A login screen opens.
Default settings: The IP address will be automatically set to **192.168.1.99**.

- 2 Type your user name and password, then click **Login**. (The default username is **pakedge** and the password is **pakedge**.)

The *Dashboard* appears. The WR-1 Dashboard lets you navigate to all of the router's configuration sections.

- 3 To configure your network's basic settings, go to **Quick Setup**.
- 4 To register the WR-1 with BakPak, click the **BakPak** icon in the top menu bar.

Registering your WR-1 with BakPak

You can connect your WR-1 to your existing BakPak account or create a new account to manage all of your BakPak Management Agents.

To register your WR-1 to your BakPak account:

- 1 In the Dashboard, click **BakPak**. The *BakPak Registration* page opens.

- 2 Follow the on-screen instructions to complete your device registration.
