

Warning: Battery safety

This device contains a built-in battery, improper use of which may result in explosion or fire. Do not disassemble, modify, or dispose of the product in fire. Do not immerse the product in direct sunlight for an extended period of time, which could cause melting or battery damage. The battery in this device is not user-replaceable and should only be replaced by a JmGO Authorized Service Provider.

Warning: AC Adapter Safety

Failure to take the following precautions can result in serious injury or death from electric shock or fire:

- Do not use the power supply unit or AC power cord that came with your device or that you received from an authorized retailer.
- Do not use non-standard power sources, such as generators or inverters, even if the voltage and the frequency appear acceptable. Only use AC power provided by a standard outlet.
- Do not overload your wall outlet, extension cord, power strip, or other electrical receptacle. Confirm that they are rated to handle the total current drawn by the device and any other devices plugged into the same circuit.

Warning: AC Adapter Safety
Failure to take the following precautions can result in serious injury or death from electric shock or fire in damage to the device.
Use only the power supply unit and AC power cord that came with your device or that you received from an authorized reseller.
Do not use non-standard power sources, such as generators or inverters, even if the voltage and the frequency appear acceptable. Only use AC power provided by a standard outlet.
Do not overload your wall outlet, extension cord, power strip or other electrical receptacle. Confirm that they are rated to handle the total current drawn by the device and any other devices that are on the same circuit.

3D button: an indicator switch to 3D mode

3D-2D button: press to switch 3D/2D menu

Direction buttons: press to move the mouse (i.e., down, left and right)

OK button

Return button: press to return to previous interface and the button press to return the interface

Menu button: press to call menu

Power button: Press to power on/off the device.

Press and hold the Power button for 5 seconds to turn off the device.

Press and hold the Power button and 3D button for 5 seconds to turn on the 3D mode.

Connect one end of the power adapter to DC IN and the other end to the power source to use the device.

As the viewing distance and screen size are directly proportional, the longer the distance is, the larger the size will be. You can adjust the distance according to your own preference.

The indicator is on the Power button and it can indicate different working status by different colors (orange and white).

Charging complete: The indicator remains on in orange.

Charging complete: The indicator remains on in white.

Low power: The indicator flashes in orange when power level is low. In such case you can't use your settings and connect external power source as soon as possible.

Abnormal: The indicator flashes in orange and white in turn every 1s and sector 1s; when the fan or power source is abnormal and the device fails to power on. In such case, check whether the air inlet or outlet is blocked and start the device again. If problem remains, please contact our service center.

You can adjust the focus by turning the knob up and down until the projection is clear.

Settings - Network settings - Wireless settings

You can play 3D video directly or play the 2D video in 3D by pressing the 3D button during the play.
Note: please note that the JmGO active shutter 3D glasses are required to view

Warranty (All Regions Except China Mainland)

Jetco values your business and always attempts to provide you the very best of service. If this product requires maintenance or repair, we'll contact the dealer from whom you purchased the product or visit our product support website at www.jetco.com for information on how to obtain service or a Return Material Authorization (RMA) for which we will provide you with a prepaid shipping label. We will also provide you an RMA number and instructions for product return. An unauthorized repair attempt for which we are not responsible will void the warranty. We will ship you at your expense. Authorized returns must be shipped in an approved shipping container, repacked and insured, to the address provided on your return paper. Your original box and package should be kept for storing or shipping your Jetco's.

Limited Warranty:

Jetco warrants that the product, in the course of its normal use, will for the entire life of the product be free from defects in materials and workmanship and will conform to Jetco's specification thereof. The term of your limited warranty is for one year from the date of purchase. The warranty is void if the product is damaged by misuse, neglect, subject to limitations specified above, your title and exclusive warranty shall be, during the period of warranty, the repair or replacement of the product.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
