RE: Final Amplification Stage Voltage and Current

To Whom It May Concern:

The maximum voltages and currents for the final amplification stages of the ZB570-A product, FCCID SO4ZB570-TRI-ALTE, is as follows:

Uplink Amplifier (704-716 MHz): 4.5V, 0.5 A
Downlink Amplifier (734-746 MHz): 3.7V, 0.5 A

Uplink Amplifier (824-849 MHz): 3.7V, 0.5 A
Downlink Amplifier (869-895 MHz): 3.7V, 0.5 A

Uplink Amplifier (1850-1910MHz): 3.7V, 0.5 A
Downlink Amplifier (1930-1990MHz): 3.7V, 0.5 A

Sincerely,

Scott Terry
