Android® Fans Start Here

- 1 Make sure your device is compatible.

Android 4.4 & Later with Bluetooth® Low Energy.

- 2 Download the TrackR app from Google Play. Search Google Play for TrackR, look for the icon as seen below.

- 3 Make sure Bluetooth is ON, and open the TrackR app.

- 4 Press the "Get Started" button in the app.

- 5 Register the app for future news, support, and discounts. When done select Next in the top right

Registration is optional.

Please visit [www.thetrackr.com](http://www.thetrackr.com) for support, or email [support@thetrackr.com](mailto:support@thetrackr.com). Also visit [www.thetrackr.com/support](http://www.thetrackr.com/support)

**Apple Fans, Please see the Reverse Side**

- 6 Select Yes when asked if you have a TrackR device with you, then select add a new device.

- 7 Push the button on the TrackR device. The blueLED will blink.

- 8 In the TrackR app, the Add Device screen should be showing. Select refresh at the top right corner, and "TrackR" should appear on the screen.

- 9 Select **TrackR** and the app will connect. Select "Pair" when prompted, and the device will beep to let you know it connected properly. Follow the on-screen instructions and enjoy TrackR.

Application needs to be running in the background at all times.

Apple® Fans Start Here

- 1 Make sure your device is compatible

iPhone® 4S & Later, iPad® Mini & Later, iPad 3rd Gen. & Later with iOS 7 or Later.

- 2 Download the TrackR app. Search the App Store for TrackR, look for the icon, as seen below.

- 3 Make sure Bluetooth is ON, and open the TrackR app.

- 4 Select "OK" to Current Location & Bluetooth permissions. We need these permissions in order for the app to work. If you accidentally select no, please go to iPhone settings to enable these. Settings> Privacy> Location Services, and switch TrackR ON.

- 5 In the App, select "Get Started".

Please visit [www.thetrackr.com](http://www.thetrackr.com) for support, or email [support@thetrackr.com](mailto:support@thetrackr.com). Also visit [www.thetrackr.com/support](http://www.thetrackr.com/support)

**Android Fans, Please see the reverse side.**

- 6 Register for Crowd GPS Tracking capabilities. You will receive an email, to confirm your account. When done, select "Next" in the upper right corner. (Registration is completely optional)

- 7 Select "TrackR" from the list of compatible devices. Select "Continue" to show the "Add Device" screen.

- 8 Push the button on the TrackR device. The blueLED will blink.

- 9 Select "TrackR" and the app will connect. Follow the on screen instructions and enjoy your TrackR!

Application needs to be running in the background at all times.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-- Reorient or relocate the receiving antenna.  
-- Increase the separation between the equipment and receiver.  
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
