Getting to Know Your Tablet

Setting Up Your Tablet

Before exploring all the great features of your tablet, set it up by installing the nano-SIM card and an optional microSDXC card (sold separately).

WARNING!

To avoid damage to the device, do not use any other kind of SIM cards, or any non-standard nano-SIM card cut from a SIM card. You can get a standard nano-SIM card from your service provider.

1. Open the nano-SIM/microSDXC card slot cover on the back of the tablet.
2. Insert the nano-SIM card and the optional microSDXC card into the respective slot.

3. Close the slot cover tightly.

Charging the Battery

Your new tablet's battery should have enough power for the device to turn on and find a signal. You should fully charge the battery as soon as possible.

WARNING!

Use only ZTE-approved chargers and USB cables. The use of unapproved accessories could damage your device or cause the battery to explode.

WARNING!

Do not remove the back cover. The battery is not removable. Removal may cause fire or explosion.

1. Connect the adapter to the charging jack.
2. Connect the charger to a standard AC power outlet.
3. Disconnect the charger when the battery is fully charged.

NOTE:

If the battery is extremely low, you may be unable to power on the tablet even when it is being charged. In this

case, try again after charging for at least 20 minutes.
Contact customer service if you still cannot power on the
tablet after prolonged charging.

Powering On/Off

- Press and hold the **Power** key to turn on your tablet.
- To turn it off, press and hold the **Power** key to open the options menu and touch  > .

NOTE:

If the device freezes or takes too long to respond, try pressing and holding the **Power** key for about 10 seconds to restart the device.

Waking Up Your Tablet

Your tablet automatically goes into sleep mode when it is not in use for some time. The display is turned off to save power and the keys are locked to prevent accidental operations.

You can wake up your tablet by turning on the display and unlocking the keys.

1. Press the **Power** key to turn the screen on.
2. Swipe up on the screen.

NOTE:

If you have set an unlock pattern, a PIN or a password for your tablet, you'll need to draw the pattern, or enter the PIN/password to unlock the screen.

Product Safety Information

	Don't use at gas stations.
	Don't make or receive phone calls while driving. Never text while driving.
	Your tablet may produce a bright or flashing light.
	Don't dispose of your tablet in fire.
	Small parts may cause choking.
	Avoid contact with anything magnetic.
	Your tablet can produce a loud sound.
	To prevent possible hearing damage, do not listen at high volume levels for long periods.
	Avoid extreme temperatures.
	Keep away from pacemakers and other electronic medical devices.
	Avoid contact with liquids. Keep your tablet dry.

	Do not attempt to disassemble your tablet.
	Turn off when told to on aircraft and at airports.
	Don't rely on your tablet as a primary device for emergency communications.
	Turn off when near explosive materials or liquids.
	Only use approved accessories.

FCC RF Exposure Information (SAR)

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the United States.

The exposure standard for wireless devices employing a unit of measurement is known as the Specific Absorption

Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

The FCC has granted an Equipment Authorization for this model device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model device is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: SRQ-K87CC.

For this device, the highest reported SAR value for usage near the body is 1.038 W/kg.

While there may be differences between the SAR levels of various devices and at various positions, they all meet the government requirements.

FCC Regulations

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received,

including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

 **CAUTION:**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
