

The diagram shows the back of a mobile phone (EUT) with a blue outline. At the top center is a blue camera icon. In the lower half, there is an orange rectangular outline representing the battery compartment. Inside this orange outline is a green rectangular outline representing the label location. The green outline is slightly offset from the orange one, with a small notch on its top-right corner. Two black leader lines point from text labels on the right to the orange and green outlines respectively.
