Organization: ISC Technologies, Inc.

Request under 47 C.F.R. 0.459 that materials submitted to the commission be withheld from public inspection. ISC Technologies, Inc. hereby requests that the materials attached here to be withheld from public inspection in accordance with 47 C.F.R. 0.457 & 0.459.

Specifically, ISC Technologies, Inc. requests that the following materials be withheld from public inspection under 47 C.F.R. 0.459 because the schematic diagrams are confidential to us and covered under a Non-Disclosure agreement with Glenayre Electronics. These diagrams are not provided to customers as part of the user manual, as we require they return the product to us for repair. Placing these diagrams in the public domain would give our competitors an unfair advantage as they would have access to the technology and the ability to do repairs without the expense that we have incurred in development. They are considered confidential trade secrets and technical data which customarily would be guarded from competitors:

(1) Detailed Circuit Schematics of EUT are found in the FCC electronic attachments.  
Therefore, in accordance with 47 C.F.R. 0.457 & 0.459, ISC Technologies, Inc. requests that the above listed materials, copies of which are here to be withheld from public inspection.
