Battery Installation

-

Connect one end of the USB cable to the adapter, and the other end to the device. Charging cradle is recommended for convenient charging.

Battery		Medium power
		Less power
		Low power
WiFi		WiFi on. No available wireless networks for connection
		WiFi connected
		WiFi switched off

and Content in this product

U: This symbol indicates that the content of this toxic or hazardous substance in all homogeneous material is under the limit specified in the SL/T11363-2006.

X: This symbol indicates that the content of this toxic or hazardous substance in at least one homogeneous material exceeds the limit specified in the SJT 11363-2006; however, the exceeding toxic or hazardous substance in the part with a "X" cannot be solved for there is no mature technology can be used.

 This logo refers to the period [10 years] during which the toxic or hazardous substances or elements contained in electronic information products will not leak or mutate so that the use of these [substances or elements] will not result in any severe environmental pollution, any bodily injury or damage to any assets.

2. Risk of explosion if battery is replaced by an incorrect type. Dispose of batteries according to instructions.
2. However, there are limitations as to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack such as heat, cold, harsh environmental conditions, and severe drops.
3. When batteries are stored over six months, some impermissible deterioration in operating quality may occur. Some deterioration of full-charged capacity may occur. Batteries should be recharged and used as frequently as possible to maintain full-charged capacity and to prevent loss of capacity, number of metallic parts, and electrolyte balance. When storing batteries for one year or longer, the charge level should be rechecked at least once a year and charged to full of full charge.
3. Replace the battery when a significant loss of run time is detected.

- ## Battery Safety Guidelines
1. When in use with the air pump, battery should be free of debris and contaminants. The battery should be clean, dry, and free of any flammable or combustible material. Excessive dirt, oil, fuel, or other contaminants should be taken away from the battery.
 2. Inspect battery visually. Damage and physical condition should be taken into account. Do not use a battery with any of the following conditions:
 - a. Cracked, bent, or distorted.
 - b. Leaking or dripping.
 - c. Excessive heat.
 - d. Excessive vibration.
 - e. Excessive noise.
 - f. Excessive odor.
 - g. Excessive smoke.
 - h. Excessive sparks.
 - i. Excessive fire.
 - j. Excessive explosion.
 - k. Excessive smoke.
 - l. Excessive sparks.
 - m. Excessive fire.
 - n. Excessive explosion.
 - o. Excessive smoke.
 - p. Excessive sparks.
 - q. Excessive fire.
 - r. Excessive explosion.
 - s. Excessive smoke.
 - t. Excessive sparks.
 - u. Excessive fire.
 - v. Excessive explosion.
 - w. Excessive smoke.
 - x. Excessive sparks.
 - y. Excessive fire.
 - z. Excessive explosion.
 3. Remove battery from use immediately in the following, or other hazard:
 - a. Excessive heat.
 - b. Excessive vibration.
 - c. Excessive noise.
 - d. Excessive odor.
 - e. Excessive smoke.
 - f. Excessive sparks.
 - g. Excessive fire.
 - h. Excessive explosion.
 - i. Excessive smoke.
 - j. Excessive sparks.
 - k. Excessive fire.
 - l. Excessive explosion.
 - m. Excessive smoke.
 - n. Excessive sparks.
 - o. Excessive fire.
 - p. Excessive explosion.
 - q. Excessive smoke.
 - r. Excessive sparks.
 - s. Excessive fire.
 - t. Excessive explosion.
 - u. Excessive smoke.
 - v. Excessive sparks.
 - w. Excessive fire.
 - x. Excessive explosion.
 - y. Excessive smoke.
 - z. Excessive sparks.
 4. Do not use nonrechargeable batteries and chargers, but of a compatible type, with the pump. Do not use a battery with a voltage other than 12V.
 5. Do not use a battery with a voltage other than 12V.
 6. Do not use a battery with a voltage other than 12V.
 7. Do not use a battery with a voltage other than 12V.
 8. Do not use a battery with a voltage other than 12V.
 9. Do not use a battery with a voltage other than 12V.
 10. Do not use a battery with a voltage other than 12V.
 11. Do not use a battery with a voltage other than 12V.
 12. Do not use a battery with a voltage other than 12V.
 13. Do not use a battery with a voltage other than 12V.
 14. Do not use a battery with a voltage other than 12V.
 15. Do not use a battery with a voltage other than 12V.
 16. Do not use a battery with a voltage other than 12V.
 17. Do not use a battery with a voltage other than 12V.
 18. Do not use a battery with a voltage other than 12V.
 19. Do not use a battery with a voltage other than 12V.
 20. Do not use a battery with a voltage other than 12V.
 21. Do not use a battery with a voltage other than 12V.
 22. Do not use a battery with a voltage other than 12V.
 23. Do not use a battery with a voltage other than 12V.
 24. Do not use a battery with a voltage other than 12V.
 25. Do not use a battery with a voltage other than 12V.
 26. Do not use a battery with a voltage other than 12V.
 27. Do not use a battery with a voltage other than 12V.
 28. Do not use a battery with a voltage other than 12V.
 29. Do not use a battery with a voltage other than 12V.
 30. Do not use a battery with a voltage other than 12V.
 31. Do not use a battery with a voltage other than 12V.
 32. Do not use a battery with a voltage other than 12V.
 33. Do not use a battery with a voltage other than 12V.
 34. Do not use a battery with a voltage other than 12V.
 35. Do not use a battery with a voltage other than 12V.
 36. Do not use a battery with a voltage other than 12V.
 37. Do not use a battery with a voltage other than 12V.
 38. Do not use a battery with a voltage other than 12V.
 39. Do not use a battery with a voltage other than 12V.
 40. Do not use a battery with a voltage other than 12V.
 41. Do not use a battery with a voltage other than 12V.
 42. Do not use a battery with a voltage other than 12V.
 43. Do not use a battery with a voltage other than 12V.
 44. Do not use a battery with a voltage other than 12V.
 45. Do not use a battery with a voltage other than 12V.
 46. Do not use a battery with a voltage other than 12V.
 47. Do not use a battery with a voltage other than 12V.
 48. Do not use a battery with a voltage other than 12V.
 49. Do not use a battery with a voltage other than 12V.
 50. Do not use a battery with a voltage other than 12V.
 51. Do not use a battery with a voltage other than 12V.
 52. Do not use a battery with a voltage other than 12V.
 53. Do not use a battery with a voltage other than 12V.
 54. Do not use a battery with a voltage other than 12V.
 55. Do not use a battery with a voltage other than 12V.
 56. Do not use a battery with a voltage other than 12V.
 57. Do not use a battery with a voltage other than 12V.
 58. Do not use a battery with a voltage other than 12V.
 59. Do not use a battery with a voltage other than 12V.
 60. Do not use a battery with a voltage other than 12V.
 61. Do not use a battery with a voltage other than 12V.
 62. Do not use a battery with a voltage other than 12V.
 63. Do not use a battery with a voltage other than 12V.
 64. Do not use a battery with a voltage other than 12V.
 65. Do not use a battery with a voltage other than 12V.
 66. Do not use a battery with a voltage other than 12V.
 67. Do not use a battery with a voltage other than 12V.
 68. Do not use a battery with a voltage other than 12V.
 69. Do not use a battery with a voltage other than 12V.
 70. Do not use a battery with a voltage other than 12V.
 71. Do not use a battery with a voltage other than 12V.
 72. Do not use a battery with a voltage other than 12V.
 73. Do not use a battery with a voltage other than 12V.
 74. Do not use a battery with a voltage other than 12V.
 75. Do not use a battery with a voltage other than 12V.
 76. Do not use a battery with a voltage other than 12V.
 77. Do not use a battery with a voltage other than 12V.
 78. Do not use a battery with a voltage other than 12V.
 79. Do not use a battery with a voltage other than 12V.
 80. Do not use a battery with a voltage other than 12V.
 81. Do not use a battery with a voltage other than 12V.
 82. Do not use a battery with a voltage other than 12V.
 83. Do not use a battery with a voltage other than 12V.
 84. Do not use a battery with a voltage other than 12V.
 85. Do not use a battery with a voltage other than 12V.
 86. Do not use a battery with a voltage other than 12V.
 87. Do not use a battery with a voltage other than 12V.
 88. Do not use a battery with a voltage other than 12V.
 89. Do not use a battery with a voltage other than 12V.
 90. Do not use a battery with a voltage other than 12V.
 91. Do not use a battery with a voltage other than 12V.
 92. Do not use a battery with a voltage other than 12V.
 93. Do not use a battery with a voltage other than 12V.
 94. Do not use a battery with a voltage other than 12V.
 95. Do not use a battery with a voltage other than 12V.
 96. Do not use a battery with a voltage other than 12V.
 97. Do not use a battery with a voltage other than 12V.
 98. Do not use a battery with a voltage other than 12V.
 99. Do not use a battery with a voltage other than 12V.
 100. Do not use a battery with a voltage other than 12V.

driver is required. PC will automatically download from internet. Once the USB port has been connected drag the notification bar from the top of the screen to display the USB setting interface.

- 1- Tap this to activate developer menu shown (Figure 1)
- 2- Tap this to activate USB preference menu shown (Figure 2)

[illegible]

On Windows PC, go to "My Computer" to view and transfer device data.

2. Please use the accessories that have been approved by this manufacturer and correspond to this model Use of any power source, charger, battery, etc. that has not been approved by this manufacturer may cause a fire, explosion, or other hazards.
3. Please do not use the equipment with the specified temperature range (50°F to 104°F / 10°C to 40°C). The equipment may be damaged by use outside this range.
4. Do not disassemble the product and try to accessories if the equipment or any of its components are not working properly. Consult the after sales service of the company promptly to send the equipment to the after-sales service outlet for testing and maintenance.
5. The battery is made from a flammable and explosive material. Do not disassemble, puncture, drop and make any other destructive operations on the battery. Do not use the battery with high temperatures.
6. Do not use the battery with any liquid.
7. Do not use old and broken cables to connect recent documents or cables.
8. Dispose of disposal of used batteries.

There may be some confusion about the meaning of the above statement. This is not a warranty for testing electrical terminal series products. In the situation of quality problems, which arise from raw materials or production process, during use of purchased products, the seller will be responsible. The company may provide repair due to the user's failure to use the product according to the provided instructions of the product. However the user's own use and commitment will be charged.

Warranty regulations:

1. Under normal circumstances, the warranty period of the device is 12 months (13 months for accessories), subject to the sales agreement.
2. For the products purchased by the company, the user will be entitled to a free warranty for damaged or faulty warranty parts.
3. The warranty period of the product is not applicable to the following modification of the product by a personnel other than the company or improper installation, improper use by the user (failure to follow instructions, sudden number damage, accident or natural disaster).
4. The warranty will expire immediately if any alterations are made to the warranty card.
5. The user must purchase 5% and purchase certificate for each company reserves the right to interpret the above contents.

Place of Origin:	Shenzhen	Quality Inspection:	62

FCC Caution

FCC ID :SWSK388

§ 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Body Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
