

# Annex: Product Specification of Equipment Under Test

| Product Specification       |                                                                                                |
|-----------------------------|------------------------------------------------------------------------------------------------|
| Brand Name                  | UBIQUITI                                                                                       |
| Model Name                  | ACB-ISP                                                                                        |
| Marketing Name              | ACB-ISP                                                                                        |
| Wi-Fi Specification         | 802.11b/g/n HT20/HT40                                                                          |
| Antenna Type / Gain         | WLAN Ant. 1: Internal Antenna / 4.00 dBi<br>WLAN Ant. 2: Internal Antenna / 4.00 dBi           |
| Type of Modulation          | WLAN 802.11b: DSSS (DBPSK / DQPSK / CCK)<br>WLAN 802.11g/n: OFDM (BPSK / QPSK / 16QAM / 64QAM) |
| Transmitter Frequency Range | WLAN 802.11b/g/n: 2412 MHz ~ 2462 MHz                                                          |
| Receiver Frequency Range    | WLAN 802.11b/g/n: 2412 MHz ~ 2462 MHz                                                          |
