USA Country Code Attestation

All Ubiquiti Networks M5 Series models are labeled/packaged with US SKUs for products that are preconfigured (locked by software) to the USA Country Code at the factory before shipping. The products cannot be changed to any other Country Code via software or hardware.

Additionally, Ubiquiti Networks have contracts in place with all distributors that they can only receive/sell the U.S. SKU's products in the USA.

If additional information is required, please let us know.

Regards
