We appreciate the trust and confidence you have placed in Commercial Electric through the purchase of this LED light. We strive to continually create quality products designed to enhance your home. Visit us online to see our full line of products available for home improvement needs. Thank you for choosing Commercial Electric!

## Safety Information

**IMPORTANT, RETAIN FOR FUTURE REFERENCE:**

**READ CAREFULLY**

For your safety, always remember to:

- Turn off the power supply at the fuse or circuit breaker box before you install the fixture.
- Double-check all connections to be sure they are tight and correct.
- Wear rubber soled shoes and work on a sturdy wooden ladder.
- Account for small parts and destroy packing material, as these may be hazardous to children.

## FCC STATEMENT

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. **Warning:** This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

## Motion Sensor Operation

- After initialization is completed, when there is sufficient ambient light, the sensor detects the presence of a moving object, but the light will not automatically turn on.
- When the ambient light is insufficient, the sensor detects the movement of an object and the light automatically turns on.
- When the moving object moves away, after the preset delay period, the light will automatically go out.
