

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A circular printed circuit board (PCB) component is shown against a blue background. The component is populated with various electronic components, including integrated circuits, resistors, and capacitors. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. A horizontal ruler is placed below the component, showing measurements from 0 to 100 mm.
Solder Board-Component View 2	 A circular printed circuit board (PCB) component is shown against a blue background. The component is mostly empty, with a few small components visible. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. A horizontal ruler is placed below the component, showing measurements from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a small green printed circuit board (PCB) component, labeled '3', positioned on a blue textured surface. The component is irregularly shaped with several surface-mounted components including resistors and capacitors. A white label with a QR code and text is attached to the left side. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, labeled '4', positioned on a blue textured surface. The component is irregularly shaped with several surface-mounted components including resistors and capacitors. A white label with a QR code and text is attached to the left side. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. The component is shown against a blue background. A black ruler with white markings is placed horizontally and vertically next to the component for scale. The component features a white rectangular module, several small electronic components, and a long, thin antenna wire extending from the right side.
Antenna View	WIFI Antenna  A photograph of the same green PCB component, labeled 'Antenna View'. A red box highlights a white rectangular module on the board, which is identified as the 'WIFI Antenna' by a red line pointing to it. The module has a QR code and some text on it. The component is shown against a blue background.
