

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**Solder
Board-Component View
1**

Solder Board-Component View 2	 A photograph showing a circular silver-colored metal component with a rectangular cutout in the center. The component is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The ruler markings are oriented vertically on the left and horizontally on the bottom.
Solder Board-Component View 3	 A photograph showing a green printed circuit board (PCB) with various electronic components, including a white integrated circuit, several capacitors, and resistors. The PCB is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The ruler markings are oriented vertically on the left and horizontally on the bottom.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 4'. The component is rectangular with a green solder mask and various electronic components including integrated circuits, resistors, and capacitors. It is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is oriented vertically, with its longer side parallel to the ruler's 0-100 mm scale.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. This component is more complex than the one in View 4, featuring a large red rectangular component (likely a transformer or inductor), several electrolytic capacitors, and other electronic components. It is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is oriented vertically, with its longer side parallel to the ruler's 0-100 mm scale.
