

Solder Board-Component View 6	 A photograph of a small, square electronic component board, likely a camera module, placed on a blue textured surface. The board is surrounded by a black ruler with white markings in millimeters. The board features a central square component, possibly a sensor or processor, and several smaller components and solder points. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 7	 A photograph of the same electronic component board, but with a large, black, circular lens or filter mounted on the front. The board is placed on the same blue textured surface, and a black ruler with white markings is visible around it. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 8	 A photograph of a small electronic circuit board (PCB) with various components, including a large integrated circuit (IC) and several surface-mount components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters (mm) from 0 to 100. The board is oriented horizontally, and its components are clearly visible.
Solder Board-Component View 9	 A photograph of a small electronic circuit board (PCB) with various components, including a large integrated circuit (IC) and several surface-mount components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the board, showing measurements in millimeters (mm) from 0 to 100. The board is oriented horizontally, and its components are clearly visible.
