

Solder Board-Component View 5	 A photograph of a small, square, blue printed circuit board (PCB) component. The board is populated with various electronic components, including a central microcontroller, several resistors, and capacitors. It features multiple gold-plated pins along its edges. The component is placed on a black surface with a white ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The background is a light blue textured surface.
Solder Board-Component View 6	 A photograph of a small, square, blue printed circuit board (PCB) component, similar to the one in View 5. This component has a large, black, circular lens or sensor mounted on its top surface. It also has gold-plated pins and various electronic components. The component is placed on a black surface with a white ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The background is a light blue textured surface.

Solder Board-Component View 9	 A circular black PCB component with a central hole, mounted on a blue textured surface. The component has several solder points and labels: LED1, LED2, LED3, H2, H1, 9A 64V-0, E35337, RoHS, GS-001, 131010107, and PCB-BULLET2-18REV1.2 20190916. A red wire is attached to the top. A black ruler with white markings is placed below the component for scale.
Solder Board-Component View 10	 A rectangular black PCB component with various electronic components, including a large chip labeled ANTKA, mounted on a blue textured surface. A black ruler with white markings is placed below the component for scale.

Solder Board-Component View 11	 A photograph showing a small electronic component, likely a microcontroller or sensor, mounted on a blue printed circuit board (PCB). The component is positioned near a black ruler with white markings. The ruler shows measurements in millimeters, with the component located between the 10 mm and 20 mm marks. The background is a light blue surface with a fine grid pattern.
Solder Board-Component View 12	 A photograph showing a small electronic component, similar to the one in View 11, mounted on a blue PCB. The component is positioned near a black ruler with white markings. The ruler shows measurements in millimeters, with the component located between the 10 mm and 20 mm marks. The background is a light blue surface with a fine grid pattern.
