

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer is placed on a wooden surface. A red cable connects it to a power supply unit on the floor. To the right, a circular light fixture is mounted on a metal stand, illuminating the test area.
Radiation Emission Test Setup (Below 30MHz)	 A photograph showing a radiation emission test setup. A device is placed on a white stand inside an anechoic chamber, which is lined with white pyramidal absorbers. A circular light fixture is mounted on the stand, illuminating the device. The floor of the chamber has yellow and black safety markings.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
