BEFORE
PROCEEDING

If mounting the Moultrie Quick Lock Feeder Kit to:

- a Moultrie 30 or 55-gallon barrel* or Moultrie 6.5-gallon bucket, refer to **Section B**.
- a Moultrie 30-Gallon Quick-Lock Hopper, refer to **Section C**.
- any other containers, please visit our website at www.moultriefeeders.com

To operate Bluetooth Timer, refer to the Quick Start Guide in the packaging,
or if you have any questions please visit our support page.

A ADJUSTING FUNNEL HEIGHT

To adjust funnel height:

1

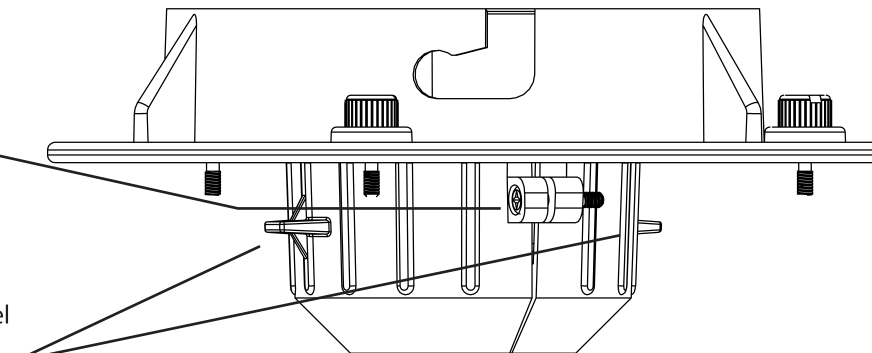

With a Phillips-head screwdriver, loosen screw.

2

With screw loosened, use tabs to position funnel in one of the two positions by either pushing down or up depending on desired position.

3

Once the funnel is in desired position, retighten the screw with Phillips-head screwdriver. **Do not overtighten.**

IC COMPLIANCE

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

FCC COMPLIANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by Moultrie Feeders could void the user's authority to operate this device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CONFORMITÉ IC

Cet appareil contient des émetteurs/récepteurs sans licence qui sont conformes aux RSS sans licence d'Innovation, Sciences et Développement économique Canada. L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

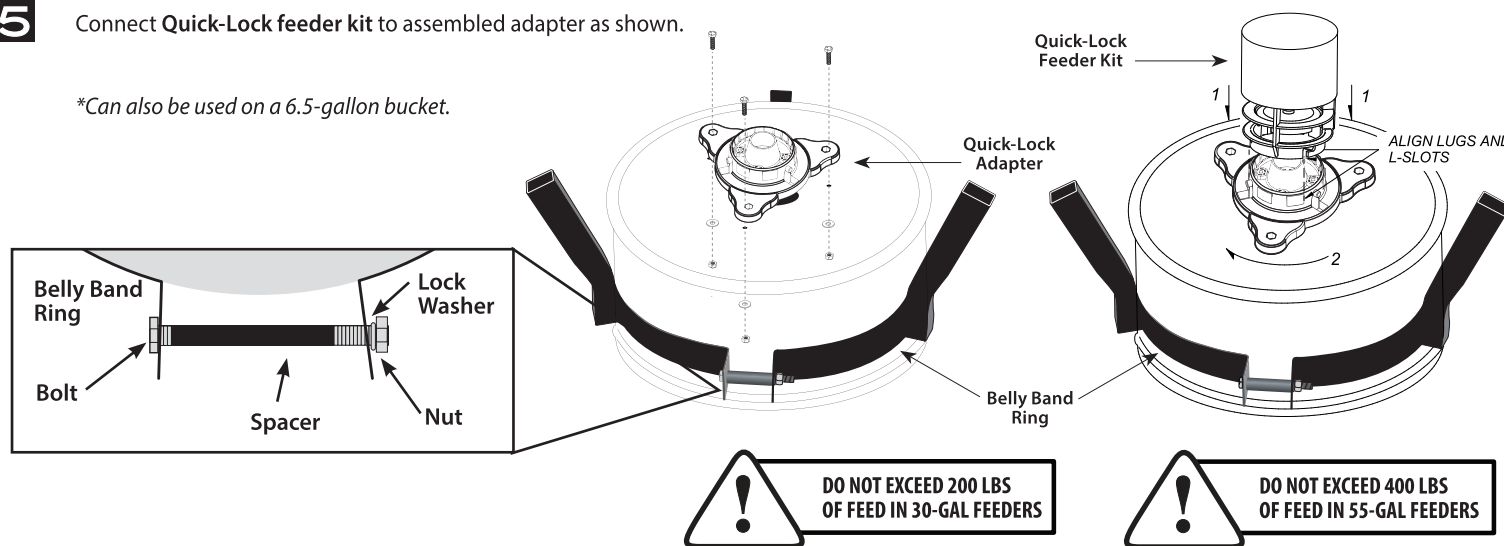

B ASSEMBLE WITH MOULTRIE QUICK-LOCK ADAPTER

55-Gallon or 30-Gallon Barrel*

- 1** Assemble **Quick-Lock adapter** by snapping **bolt tabs** in place as shown.
- 2** Turn the **metal drum** upside down and slide the **belly band ring** around perimeter and make sure that belly band is snug against the bottom structure ring as shown (Moultrie barrel only).
- 3** Slide the bolt through the **belly band ring**, **spacer** and **lock washer** as shown. Tighten nut on bolt until metal belly band ring tabs are touching spacer on each side.
- 4** Mount **Quick-Lock adapter** using (3) 1/4" x 1" bolts, nuts and washers provided in the pre-drilled holes (Moultrie barrel only). Or use the Quick-Lock adapter as a template to mark and drill the mounting holes (non-Moultrie barrel).
- 5** Connect **Quick-Lock feeder kit** to assembled adapter as shown.

*Can also be used on a 6.5-gallon bucket.

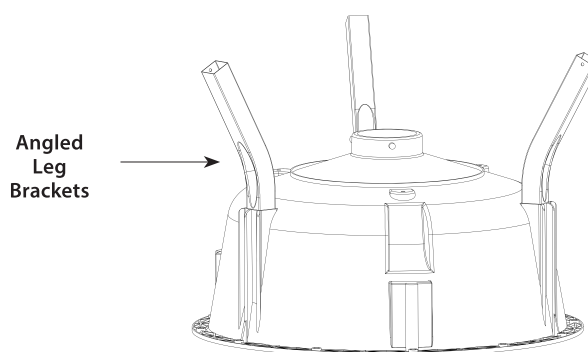

NOTE: DO NOT LOAD FEEDER until it is standing up and in place (see Section C-4).

C ASSEMBLE MOULTRIE 30-GALLON QUICK LOCK HOPPER

- 1** Place hopper bottom flat on the ground, and slide the three provided **angled leg brackets** into the **hopper** as shown.

Make sure to fully insert brackets as far as you are able to ensure the strength of the feeder.

- 2** Insert **two (2) leg sections** into each of the square leg brackets. Tap leg sections into place to ensure tight fit.

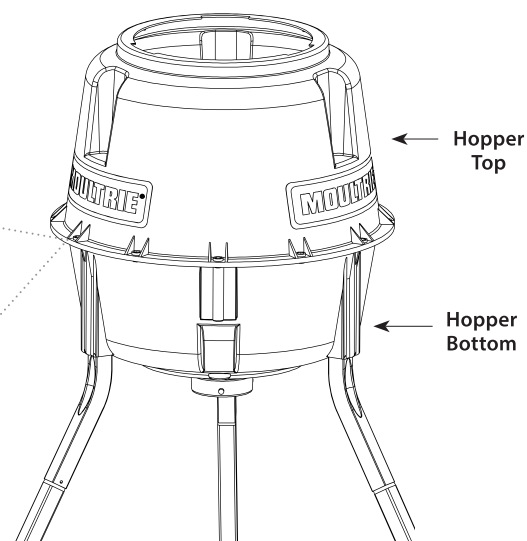

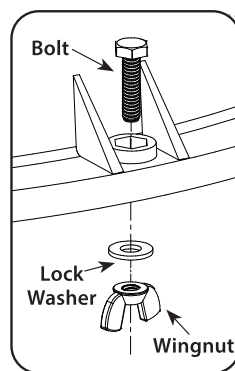

Flip **hopper bottom** assembly upside-down so that all three (3) legs are on the ground.

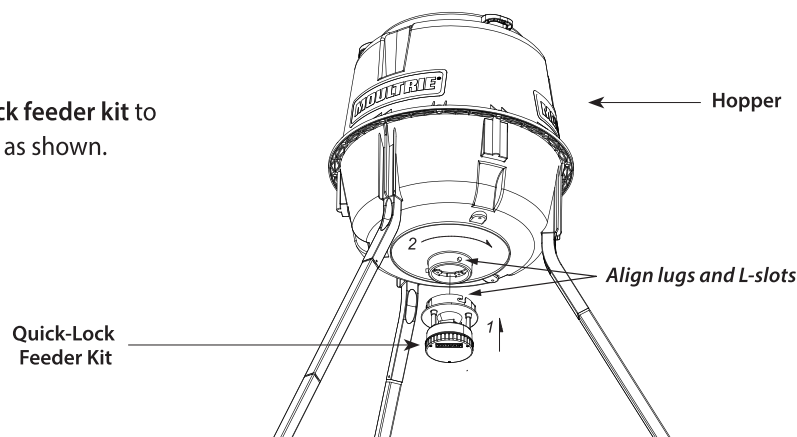

- 3** Align holes of **hopper top**, then press sides of **hopper bottom** until it snaps snugly in place. Insert **bolt** through each hole, place **lock washer** on bolt and screw **wingnut** onto bolt until tight. Repeat for all 12 bolts.

Note: Failure to properly secure two halves can result in leakage.

After completing hopper assembly, install as many legs sections as are needed for your application.

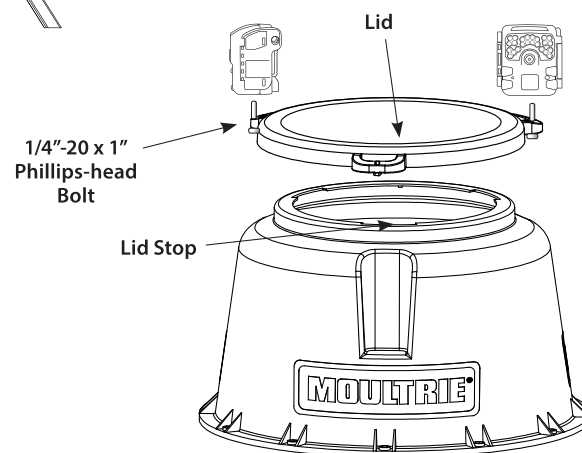

- 4** Connect **Quick-Lock feeder kit** to assembled hopper as shown.

- 5** Fill with corn/feed. **Do not exceed 200 lbs.**

Install **lid** by aligning handles with notches in **hopper top**. Twist until lid rests flush against **lid stop**.

To install a **Moultrie game camera** or **Feeder Power Panel** (sold separately), thread included **1/4"-20 x 1" Phillips-head bolt** upward through hole in lid handle and tighten bolt. Lid will hold up to 3 devices.

**DO NOT EXCEED
200 LBS OF FEED**

Our Service Department will gladly answer any questions you have.
